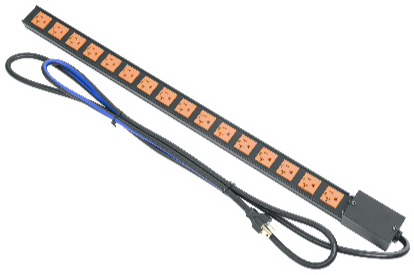
PDT Low Profile Vertical Power Strip, 16 Outlet, 20A **SKU: PDT-1620C-NS**



Get more outlets without giving up rack space. With a thin chassis, the Select Series PDT Low Profile Vertical Power Strip mounts unobtrusively in the back of the rack while still placing outlets right next to the equipment it needs to power. The PDT comes with mounting hardware to snap the PDU right into place. A no brainer for your AV system! And we will let you in on a secret - the PDTs mount to every style of Middle Atlantic rack rail brackets. Plug it in, feel confident, and simply focus on creating an amazing AV experience.

Select Series PDT Low Profile Vertical Power Strip Features & Benefits

- 20 Amps
- 16 Outlets
- Corded 9' cable
- **Lacking space in your rack for power?** Thin design takes up minimal space inside racks while still allowing each piece of vital equipment to receive the power it needs.
- **Make installation easy as one, two, clip**. The mounting hardware is included and takes no time to snap the PDU on to the rack (plus the clip are reusable!)
- **Worried about interference?** The corded models use a SignalSAFE™ wire which minimizes potential interference from AC magnetic fields from other equipment in the rack.

Specifications
