Maximize productivity and security with the ultimate hybrid quad-display docking station. Intended for work-from-home, hoteling, hot desking, and other flexible work environments, this USB-C® Hybrid/Universal 4K Quad Docking Station with 100W PD and Fingerprint ID connects up to four 4K UHD monitors or a single 8K monitor and dual 4K UHD monitors. Designed for ultimate compatibility, it supports both DP Alt Mode and DisplayLink® technologies ensuring it's fully compatible with Windows, macOS, and other major operating systems*.

For optimal security – ensuring the right users are accessing the right devices – DOCK720 incorporates a bio-authentication fingerprint reader** into the power button for a convenient and secure way to power-up the device and authenticate directly through it.

Compact and low-profile, this small-but-mighty dock is also packed with additional ports that keep you connected and your workspace clutter-free. From USB-C to USB-A to audio and Ethernet ports, you have it all.

* compatibility varies by host/operating system
**fingerprint reader only works with Windows
