DECLARATION OF CONFORMITY

Pursuant to Article 39 and Annex VII of Regulation (EU) 2025/40 on Packaging and Packaging Waste (PPWR)

1. References

DoC number: RGO-PPWR-001
Version: Rev. A
Date of issue: 09-07-2026

2. Manufacturer

Company Name: R-Go Tools B.V.
Address: Techniekweg 15, 4143 HW Leerdam
Contact: info@r-go-tools.com, +31 (0)345 758 000

3. Sole Responsibility Statement

This declaration of conformity is issued under the sole responsibility of the manufacturer.

4. Packaging identification & description

This Declaration applies to the standard retail packaging used for R-Go Tools products placed on the European market.
The standard packaging generally consists of:

Packaging Component	Material
Retail Box	Corrugated fibreboard / cardboard
Printed Sleeve	Paper
Product Insert (where applicable)	Paper / Cardboard
Product Labels / Stickers (where applicable)	Paper

Packaging dimensions may vary depending on the product. Packaging materials may be supplied by different suppliers depending on the production location.

5. Applicable PPWR Requirements

The object of the declaration referred to in point 4 is assessed against the applicable requirements of Regulation (EU) 2025/40 on Packaging and Packaging Waste (PPWR). Packaging conformity is assessed according to Annex VII, Module A (Internal Production Control).

Section	Description	Statement of Conformity
Article 5	Substances of concern	Based on the packaging specifications used by R-Go Tools, no PFAS-containing coatings, plastic laminates or other intentionally added substances of concern are specified for the standard retail packaging.
Article 6	Design for recycling	Standard retail packaging consists predominantly of paper and cardboard materials and is designed for recycling through standard paper/cardboard recycling streams.
Article 7	Recycled content (plastics)	Standard retail packaging consists predominantly of paper and cardboard. Plastic packaging components are not used in the standard retail packaging.
Article 8	Bio-based feedstock in plastic packaging	Not applicable to the standard paper-based retail packaging.
Article 9	Compostable packaging	The standard retail packaging is not designed to be compostable.
Article 10	Packaging minimisation	Packaging is designed to provide adequate protection for the product while minimizing the amount of packaging material used.
Article 11	Reuse	Standard retail packaging is not intended to be reused.
Article 12	Labelling	R-Go Tools will comply with the applicable harmonised PPWR labelling requirements once the relevant implementing acts enter into force.

Signed for and on behalf of R-Go Tools B.V.
