HP All-in-One 27-cb1277c Bundle All-in-One PC (1J9C1AA)

Overview

Good-looking. Hard-working.

The HP All-in-One blends the power of a desktop with the beauty of a modern display. Powered by an AMD processor[1], bring the cinema to you with a three-sided micro-edge Full HD[2] display and dual speakers. This AiO design includes sustainable materials[3] and is designed to keep your space clutter-free with thoughtfully placed ports.

Fast performing with ample storage

Get things done easy and fast with the performance of an AMD processor[1], and ample storage space.

Made with the planet in mind

Our AiO design includes sustainable materials like ocean-bound plastic[3] and post-consumer recycled plastic[4].

Immersive Full HD entertainment

Enhance your viewing experience with FHD[2] crystal-clear images from any angle on a 3-sided micro-edge display.

Features

Get a fresh perspective

Windows 11 provides a calm and creative space where you can pursue your passions through a fresh experience. From a rejuvenated Start menu, to new ways to connect to your favorite people, news, games, and content—Windows 11 is the place to think, express, and create in a natural way.[5]

Built to last

Life can be unpredictable, but your HP desktop shouldn't be. Backed by over 230 individual tests, our desktops go through it all to deliver durability you can trust and reliability you can count on.[6]

FHD IPS touchscreen

Always see your content at its best with 178° wide-viewing angles and a vibrant picture. And with touchscreen technology, you can control your PC right from the screen.[2]

Glossy display panel

Experience a rich and vibrant screen with the glossy panel. Perfect in optimized indoor lighting, you can enjoy reduced reflection and direct light emission to enhance contrast and image vibrancy.

Sustainable design

Because little things make a big difference, this product includes sustainable materials like ocean-bound plastic and post-consumer recycled plastic in the design.[7]

PCIe SSD storage

Boot up in seconds with lightning fast speed with up to 512 GB PCIe SSD storage.

[1] Multi-core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. AMD's numbering is not a measurement of clock speed.

[2] Full high-definition (FHD) content is required to view FHD images.

[3] PCs manufactured with recycled ocean-bound plastic material in product speaker enclosures. Percentage of ocean-bound plastic contained in each component varies by product.

[4] Percentage of post-consumer recycled plastic contained in keycap varies by product.

[5] Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers, software or BIOS update to take full advantage of Windows functionality. Windows is automatically updated and enabled. High speed internet and Microsoft account required. ISP fees may apply and additional requirements may apply over time for updates. See http://www.windows.com.

[6] HP Total Test Process testing is not a guarantee of future performance under these test conditions. Damage under the HP Total Test Process test conditions or any accidental damage requires an optional HP Accidental Damage Protection Care Pack.

[7] Percentage of ocean-bound plastic and post-consumer recycled plastic varies by product. Recycled plastic content percentage is based on the definition set in the IEEE 1680.1-2018 standard.
