

AU/NZ Surge Protector

APC SurgeArrest Performance NET8RMIB-AZ

Maximum protection against lightning, surges and spikes for valuable electronics

Power disturbances such as surges, lighting, and spikes can happen at any time and can cause irreparable damage to your investments. Therefore, count on the reliability of the APC SurgeArrest Performance series, which provides the highest level of surge protection for your office and IT equipment. With a compact, flexible design, higher joule rating, and a changeable input plug, this product offers premium surge protection to best support the equipment you rely on every day.

Ideal for high performance electronics, such as:

AV Rack Equipment

Servers

Switches
Modems
Routers

IP TV

Office
Equipment

Features and benefits

Higher Joule Rating

- 1 7 AU and 1 IEC Outlets**
Defend your valuable electronics from dangerous surges, spikes, and lightning.
- 2 Changeable Input Plug and IEC to AU Adapter**
Easily connect to the output of a UPS or an AU-NZ wall socket.
- 3 Overheat Protection**
Helps to protect internal circuits from abnormal overheating conditions.
- 4 Surge Protection**
Minimizes damage to your equipment from electric power surges and spikes.
- 5 Compact, Flexible Design**
Easily rack and wall mountable, which allows for flexible setup in tight locations.
- 6 Cable Management and Organization**
A wire hanger is included to ease cable organization and prevent wear and tear on connected devices.

Technical specifications

Model	NET8RMIB-AZ
Input Voltage	240 VAC
Input Current	10A
Line Frequency	50/60Hz +/- 5Hz
Output Current/ Voltage	10A / 220 to 250 VAC
Outlet Number	7 AS/NSZ 3112 and 1 IEC C13
Surge Energy Rating	2,400-joule
Thermal Fuse Protection for MOV	Yes
Surge Protection Indicator	Green LED
Switch (Circuit Breaker + Power on/off)	Yes
Power cord length	2m
Unit Dimensions (H x W x D)	44 mm x 441 mm x 95 mm
Warranty	2 years
