

Introducing the AI-powered ET60W/ET65W Enterprise Tablets

AI-driven, providing the next evolution in user experience.

3-in-1 rugged **tablet, laptop and vehicle mount mobile computer.**

Unmatched performance, so your **frontline can work faster and smarter** than ever before.

Transform workflows, improve job satisfaction and supercharge your frontline with a new class of AI-driven tablets — the ET60W and ET65W rugged Windows tablets.

Trailblazing Intel® Core™ Ultra platform powers a new generation of AI applications

Designed to handle practically everything — survives more real-world tests than any other tablet in its class

AI-enabled touchscreen lets workers enter data faster, easier and in more conditions

Advanced AI audio — your loudest environments are no match for the latest noise suppression technologies

The most powerful wireless connections — 5G, Wi-Fi 7, private 5G and CBRS*

Rock-solid security for your most sensitive data with facial recognition, optional fingerprint sensor, Smart Card/CAC support and more

Scan barcodes near and far — instantly capture barcodes in hand or on the top shelf of a warehouse rack

Power it your way — standard or extended hot-swappable batteries, or power vehicle mounted tablets with your forklifts

A display you can see everywhere — super bright 1,000 nit sunlight readable

Extraordinary lifecycle — buy it for 4 years, with available support for 8 years
