**1**

Insert bottom rear clips over the rear edge of the device with a sliding motion.
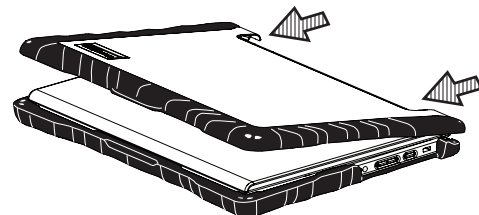

2

Press downward and snap in the front corners so that each clip securely attaches to the device.

3

Carefully slide the top rear clips over the rear edge of the device.
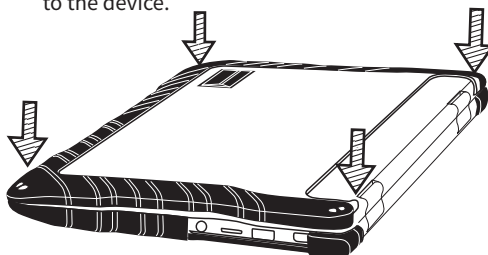

4

Press the top clips of the case over the device with pressure from both sides.

5

Close the case and gently press all corners together to ensure it is attached securely to the device.

Congratulations on your new case!

IMPORTANT!
**SEE BACKSIDE FOR REMOVAL INSTRUCTIONS** →

REMOVAL

IMPORTANT!
**FOLLOW STEPS 1 AND 2 IN ORDER**

1

Remove the top case by pushing outward the left and right side lower clips to release the bottom part of the top case.

2

Start sliding the top case off by pushing up with your fingers on the bottom corners.

3

Gently slide the upper corners up and off the device to remove the top case.

4

Remove the bottom case by gently pushing downward the clips at the left and right side back corners.

5

Gently remove the front portion of the bottom case by pulling away from the device.
