

## ASSEMBLY INSTRUCTIONS

**TOOLS REQUIRED:** Phillips Screwdriver, Mallet or Hammer

**PRODUCT WARRANTY CARD** is available online at: [www.safcoproducts.com](http://www.safcoproducts.com)

PARTS LIST FOR 5256 POST PACK			
LETTER CODE	DESCRIPTION	QTY.	PART NO.
A	Post	4	5256-01
C	Bolt (1/4-20x1/2")	29	5256-23
D	Nut (1/4-20)	29	5256-24
F	Long Brace	2	5256-04
G	Short Brace	4	5256-03

PARTS LIST FOR SHELF PACK				
LETTER CODE	MODEL NUMBER	DESCRIPTION	QTY.	PART NO.
B	5250	Shelf (12"x36")	6	5250-01
B	5251	Shelf (12"x48")	6	5251-01
B	5252	Shelf (18"x36")	6	5252-01
B	5253	Shelf (18"x48")	6	5253-01
B	5254	Shelf (24"x36")	6	5254-01
B	5255	Shelf (24"x48")	6	5255-01
E	ALL	Clip	24	5250-26

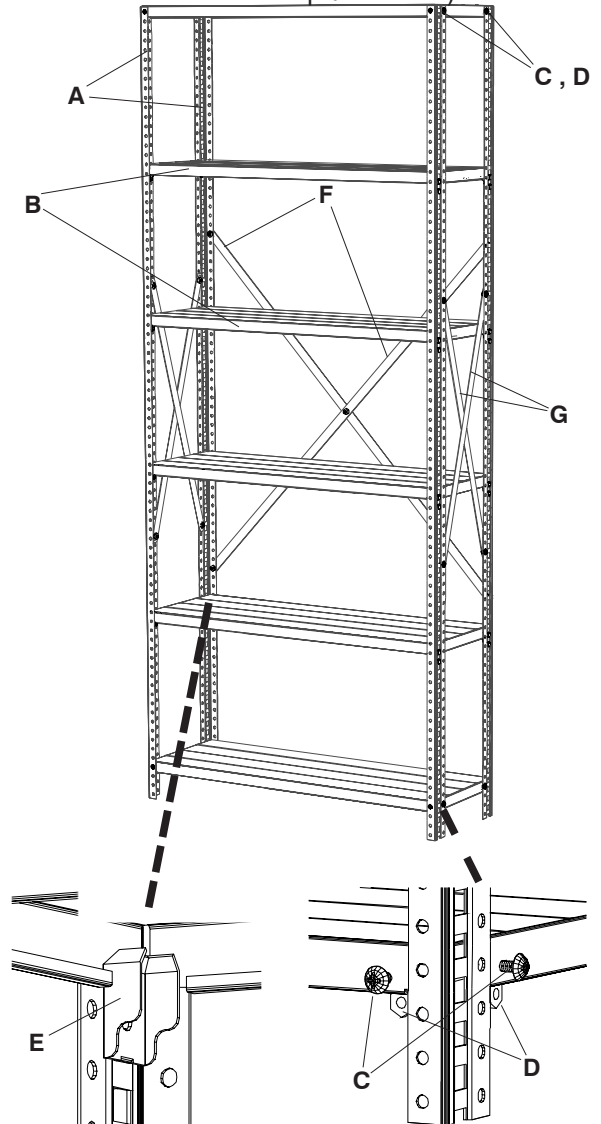

NOTE: Check all parts against Parts List before starting.

- Place two (A) Posts on the floor or work surface, with the short flanges facing each other and the large flanges (with the square holes) facing up.
- Spread the posts apart until the long side of a (B) Shelf fits between them. Attach the lowest shelf to the posts at the fourth hole from the bottom of the posts, using two (C) Bolts and two (D) Nuts at each corner, finger tight only. NOTE: Bottom shelf may be moved as low as the second hole, if desired; fourth makes cleaning a little easier.
- Attach the top shelf to the posts at the top hole, in the same manner (two bolts, two nuts per corner).
- Place the two remaining posts over the corners of the shelves, with the large flange (square holes) running down the shelf sides. Connect the top and bottom shelves to the posts at the same locations as before, two bolts and two nuts per corner. Finger tighten only.
- Stand the unit upright, on a level surface. Determine desired shelf positions, and insert (E) Clips into the square holes on all four posts at each of these positions. The top of the clip will be the top of the shelf. IMPORTANT: Make certain that both tabs of each clip are fully seated by tapping down **lightly** into position.
- Install Shelves over clips, making sure all shelf sides, fronts and backs fit between clips and posts. Tap shelf lightly to seat it properly.
- Bolt the two (F) Long Braces together at the center hole with a nut and a bolt. Attach one brace to each of the back posts, 24 holes down from the top, with nuts and bolts (finger tight). Now attach the bottom ends at the most appropriate post holes, again using nuts and bolts.
- On each side, bolt a (G) Short Brace to the **inside** of each post, 29 holes down from the top. Cross the braces over to the opposite post, and bolt (**inside**) into the most appropriate holes (finger tight). NOTE: In the event the side braces interfere with a shelf, the braces may be moved to more suitable locations.
- Make sure the unit is on a level surface. Check all posts and shelves for squareness, then tighten all nuts and bolts.

### IMPORTANT SAFETY INSTRUCTIONS

These Installation Instructions **MUST** be followed. All braces, nuts, bolts and clips **MUST** be used as shown. All bolting **MUST** be checked for tightness. Do not attempt to stand on shelves or use as ladder. Evenly distribute weight on each shelf and keep heavier loads to the bottom.

Assembled Unit  
(5256 Post Pack and  
5250 Shelf pack shown)

**INSTALL CLIPS FOR ALL MIDDLE SHELVES**

**USE NUTS AND BOLTS ON TOP, BOTTOM SHELVES**
