- Features a large 2.5 inch colour TFT screen for viewing images stored on your memory card
- Convenient carry handle and optional battery (LK-60) for even more portability

Short Description

The PIXMA mini260 is a dedicated compact photo printer that allows users to enjoy high-speed, high-quality photo printing from a camera, memory card or mobile phone without using a computer. Features a large 2.5 inch colour TFT screen for convenient viewing of images stored on your memory card. The PIXMA mini260 is the perfect way to print and share your photos with family and friends instantly.

ChromaLife100

A beautiful photograph is something worth keeping forever. Now with ChromaLife100, the photos you print at home can maintain all their vibrancy and colour for 100 years⁵. The combination of genuine Canon ChromaLife100 ink and selected Canon photo papers lets you print long-lasting photos of unrivalled quality. Thanks to ChromaLife100, the precious memories in your albums will still be bright and fresh a century from now. Canon has a range of specialty photo papers that's suitable for virtually every photo size and use. To ensure you gain all the long-lasting benefits of ChromaLife100, make sure you choose Canon's Photo Paper Pro, Photo Paper Plus Glossy, Photo Paper Plus Semi-gloss or Glossy Photo Paper.

Direct Photo Printing – No Computer Required

- Prints directly from compatible digital cameras using PictBridge technology³
- Features Card Direct allowing you to print photos directly from compatible memory cards⁴
- Prints photos & stickers wirelessly from your mobile phone via infrared technology (or via Bluetooth with optional BU-20 adaptor)
- Features a large 2.5 inch colour TFT screen for viewing images stored on your memory card
- New Easy-Scroll Wheel for instant, intuitive operation allowing easy access to many different functions
- Some exciting direct print editing features include Face Brightener, Noise Reduction, Vivid Photo, Red Eye Correction, Layout Print, Sticker Print, Trimming, and adjustments for brightness contrast & colour hue

High-quality Photo Printing at Fast Speeds

- 1 picolitre FINE (Full-photolithography Inkjet Nozzle Engineering) print-head technology
- Prints high quality images from your computer at up to 9600 x 2400 dpi¹
- Four colour ink tank includes Photo Black for improved image contrast, giving your photos a dynamic three-dimensional feel
- Prints a borderless 6" x 4" photo via PictBridge in approximately 59 seconds² or as fast as 52 seconds from your computer⁶
- USB 2.0 Hi-Speed interface allows fast data transfer so you won't waste time waiting⁷

Easy-to-Use Software

- Easy-PhotoPrint – print photos from your computer with this user-friendly application. Easy-PhotoPrint allows you to print out digital photos, retouch portraits and utilise a lab quality trimming tool. Features within this software include Blemish remover, Face Sharpener and Face Brightener

Optional Accessories	Bluetooth Unit (BU-20), Portable Kit (LK-60)

* Ink yield calculation is based on printing Canon 24 standard digital images on Photo Paper Plus Glossy (6" x 4" borderless print) with default settings in Windows XP driver. The figure above is an average value, measured when printing continuously using the ink immediately after it is unsealed, until the ink is out. Ink yield may vary depending on photos printed, applications software used, print mode and type of paper used. This should be used as a guide only and does not take into account ink that might be used for head cleaning or head refreshing to maintain printer performance. Please visit our website for further details.

1. Ink droplets can be placed with a pitch of 1/9600 inch at minimum (PC printing only).
2. When printing a 6 megapixel image taken by certain Canon digital camera from PictBridge on default settings using Photo Paper Plus Glossy without border.
3. PictBridge camera direct printing requires PictBridge compatible digital cameras in order to function. Check with your digital camera manufacturer or users guide to determine PictBridge compatibility.
4. Compatible memory cards include CompactFlash®, Microdrive, SmartMedia®, Memory Stick®, Memory Stick PROTM, SD CardTM and MultimediaCard® (v3.31).
Note: xD-Picture CardTM, Memory Stick DuoTM, Memory Stick Pro DuoTM, miniSD Card and RS-MMCTM (v3.31) can only be used with the addition of a special adaptor sold separately - ask your memory card supplier.
5. Up to 100 Years' Life in a Photo Album when printed with ChromaLife 100 ink on selected Canon Photo Papers. Kept in a photo album, shut out light and air (gas), temperature 23 degrees and 50% humidity. Predicted value from the accelerated test. Result may vary based on individual environmental factors. For more information, please visit canon.com.au/ChromaLife100
6. Print speed dependent on system configuration, image complexity, type of paper used, software, print mode and does not take into account data processing time on host computer.
7. USB 2.0 Hi-Speed performance requires Windows XP with Service Pack 1 or Windows 2000 with Service Pack 4 with pre-installed USB 2.0 Hi-Speed port.

All specifications may change without notice.
