

WCSC600 Digital Amplified Freedom Phone™ with Full ClearDigital™ Power

More powerful amplification & tone management.

If you want the best technology has to offer, the CSC600 UltraClear Amplifying Speakerphone is for you. This model combines superb design, ergonomics and functionality with exceptional amplification and tone management technology.

It delivers power without devouring it. The handset offers adjustable amplification and full range tone controls which is the key to hearing clearly. The base system is amplified and the ringer can be adjusted up to 95 dB, so you won't miss a call. While the phone delivers this robust set of powerful features, it's designed to consume 50% less power than other amplified phones.

What else does it offer? Outgoing speech amplification, a large backlit angle-adjustable LCD, 99 name/number Caller ID history, display dial, missed call and voicemail waiting indicators, and more. It's easy to understand why UltraClear is a top seller.

ClearSounds®
It's Communication Amplified.
