VGA Wall Plate Video Extender over Cat5 with Audio

Product ID: STUTPWALLA

This VGA Wall Plate Cat5 Video with Audio Extender kit includes both transmitter and receiver units, allowing you to make out-of-the-way connections from a VGA video and audio source to a remote monitor location. The transmitter and receiver wall plates can be placed in a wall or ceiling gang for a cleaner, more professional VGA installation, supporting connection distances up to a maximum of 300m (950ft).

Offering maximum versatility and convenience, the VGA wall plate kit is easy to install; simply wallmount the transmitter unit near the intended VGA source, then wallmount the receiver unit near the monitor/projector. The VGA transmitter and receiver units can then be linked using standard Cat5e or Cat6 cable to provide a high quality video and stereo audio extension while concealing the cable for a neatly placed installation.

> "I would highly recommend this to anyone or any business looking for an easy and more efficient way to present."
> — bayreviews.com

Both VGA transmitter and receiver units use a 12V DC terminal
block connector behind the unit that offers a more secure and economical installation; using Cat5/Cat6 cable to extend the VGA signal offers a cost-effective solution based on the broad availability of networking cable which is far more flexible than VGA cable, not to mention less expensive.

Unlike some video extension systems, our VGA extender wall plates also allow you to make use of an existing networking cable (Cat5, Cat6) infrastructure, eliminating the need to re-run cable in the event of an upgrade from VGA to another video standard, by simply swapping out the wall plates.

Applications

- Ideal for Pro A/V installers and integrators looking for an easy solution to extend VGA video and audio using Cat5 cabling
- Applications including:
  Education
  Corporate
  Digital Signage
  Healthcare
  Hospitality and Entertainment
  Houses of Worship

Features

- VGA video and audio extension up to 300m/950ft (Please see Specifications for resolutions supported at various distances)
- Uses Cat5 cabling to extend VGA and audio connections, making installation easy with lightweight, flexible connections that can fit through small conduits
- Powering the STUTPWALLA uses a terminal block for a more secure connection
- Can be used with existing in-wall Cat5 cabling

Hardware	Warranty	2 Years
	Cabling	Cat 5 UTP
	Daisy-Chain	No
	Ports	1
Performance	Audio Specifications	3.5mm Stereo Audio (2 channel)
	Max Distance	300 m / 950 ft
	Supported Resolutions	1920x1200 @ 50m(164ft) 1600x1200 @ 100m(328ft) 1280x1024 @ 180m(590ft) 1024x768 @ 200m(656ft) 800x600 @ 300m(984ft)
Connector(s)	Local Unit Connectors	1 - RJ-45 Female
		1 - Terminal Block (2 Wire)
		1 - VGA (15 pin, High Density D-Sub) Female
		3.5 mm Mini-Jack (3 Position) Female
	Remote Unit Connectors	1 - RJ-45 Female
		1 - Terminal Block (2 Wire)
		1 - VGA (15 pin, High Density D-Sub) Female
		3.5 mm Mini-Jack (3 Position) Female
Indicators	LED Indicators	1 - Power LED
Power	Output Current	0.6A
	Output Voltage	12 DC
	Power Consumption (In Watts)	7.2
	Power Source	AC Adapter Included
Physical Characteristics	Color	White
	Enclosure Type	Steel
	Product Height	1.5 in [3.8 cm]
	Product Length	4.1 in [10.5 cm]
	Product Width	1.7 in [42 mm]
	Weight of Product	3 lb [1.3 kg]
Packaging Information	Package Height	5.8 in [14.7 cm]
	Package Length	11.5 in [29.2 cm]

	Package Width	2.4 in [62 mm]
	Shipping (Package) Weight	4.5 lb [2 kg]
What's in the Box	Included in Package	1 - VGA Wall Plate Video Extender with Audio - Transmitter and Receiver
		1 - Terminal Block for Power Adapter
		1 - Power Adapter
		1 - Instruction Manual
