

## TBM022US | Targus Spruce EcoSmart™ Mini Messenger for iPad™

The Targus Spruce Mini Messenger for iPad is designed with eco-friendly materials to protect the iPad while providing additional space for other accessory items. The messenger features an organization compartment with pen loops, a business card holder, large mesh storage space and zippered pocket. The main compartment features a padded iPad compartment with scratch-resistant lining and additional space for a small note pad, power adapter, cables and more. The Spruce Mini Messenger is constructed of recycled polyester material which is created from recycled plastic bottles. To help reduce toxins in the environment during the manufacturing process, the case materials are also nickel free and PVC-free. A colorful green interior lightens the case, making items stored inside more visible. For added comfort, the Spruce case features a padded/removable shoulder strap and cushioned carry handle.

**Compatibility** – Designed specifically to fit the Apple iPad

**Ergonomic** – Padded/removable shoulder strap and padded carry handle make this case easy to travel with

**Functionality** – Extra large capacity iPad case; includes space in addition to the padded iPad compartment to carry mobile accessories such as an iPad adapter, cables and more; Large organization pocket with pen loops, business card holder and zippered compartment; Large easy-access front pockets for items you need to access quickly

**Material** - Constructed of recycled polyester material from recycled plastic bottles
