Antec
Believe it.

P183 V3
PERFORMANCE ONE SERIES

Quiet computing

The Antec P183 epitomizes cooling, quiet and sophistication. An Antec-exclusive three-layer side and front panel design (aluminum, plastic, aluminum) reduces noise and ensures Quiet Computing™. The P183 also boasts a dual chamber design that isolates the power supply from the rest of the components, minimizing heat and reducing system noise. Additional features include two internal 2.5" SSD bays, an external control for fans, cable management and a special gunmetal gray finish for one-of-a-kind style.

P183 V3
PERFORMANCE ONE SERIES

Divided upper and lower chamber structure – the power supply resides in a separate chamber with dedicated cooling from a 120 mm fan to isolate heat from the system and lower system noise

Innovative three-layer side panel and front door (aluminum, plastic, aluminum) dampens system-generated noise, making this one of the quietest cases available

Unique Power Supply Option: Comes with a power supply mounting adapter to mount either a regular PS/2 size power supply or the unique Antec CP-850 or CP-1000 super quiet, high performance power supply

UPC# 0-761345-81834-6

SPECIFICATIONS:

- **Dual chamber design** isolates heat and noise
- **Power supply option:** Comes with a power supply mounting adapter to mount either a standard size power supply or Antec's exclusive CP series power supply
- **13 drive bays:**
  - 4 x external 5.25"; 1 x 3.5"
  - 6 x internal 3.5" for HDD
  - 2 x internal 2.5" for SSDs
- **Advanced cooling system**
  - 1 rear 120 mm TriCool™ fan
  - 1 top 120 mm TriCool™ fan
  - 2 front (optional) 120 mm fan for HDD
- Cable organizers behind motherboard tray minimize cable clutter
- **CPU cutout allows for easy installation of CPU coolers**
- **Three-layer, sound-deadening side panels** and front door (aluminum, plastic, aluminum) dampens noise and ensures Quiet Computing™
- **Double-hinged door** opens to 270°
- **7 expansion slots**
- **Built-in washable air filters inside front panel**
- **Front ports**
  - 2 x USB 2.0
  - 1 x USB 3.0
  - Audio In and Out (HDA and AC'97 compatible)
- **0.8 mm cold rolled steel** for durability; 1.0mm cold rolled steel around 4 x HDD area
- **Motherboard:** Mini-ITX, microATX and Standard ATX
- **No power supply included**
- **Case dimensions:**
  - 515 mm (H) x 205 mm (W) x 507 mm (D)
  - 20.3"(H) x 8.1"(W) x 19.9"(D)
