

# SC™ 1 Black

INNOVATION. AMPLIFIED.™

## OVERVIEW

The SC-1 includes humbucking pickups, ceramic loaded for warmth, punch and presence, harmonically positioned and frequency calibrated. The SC-1 is an elegant two-pickup guitar. All Single Cut guitars feature treble-compensated volume controls that enhance pickup clarity at low volume levels. The SC-1 guitar is crafted from basswood with an integral center body section, carved top and a deep lower cutaway with scoop for extended access to the upper register. The SC-1 features a hard rock maple neck with rosewood fingerboard. The SC-1 boasts gloss black, cherry burst and vintage tobacco burst finishes, with chrome hardware and standard dot inlays. All three models use die-cast tuners with a 15:1 gear ratio.
