

EncryptDisc[®] Self-Encrypting Optical Media

Easy to Use Secure Affordable Sharing

EncryptDisc combines 256-bit AES encryption and disc burning functionality, all self-contained on a recordable CD or DVD. EncryptDisc offers built-in software for disc burning and government strength FIPS 140-2 validated 256-bit AES encryption.

There's no software to install and no need for third-party software applications. EncryptDisc addresses the needs of users who require a simple, highly secure method to transport, share and archive sensitive data and records. EncryptDisc is the proven choice for low-cost, high-capacity encrypted media that adheres to HIPAA, SOX, HITECH and other industry standards.

Features of EncryptDisc

Easy to Use

Simply insert EncryptDisc & create a password when prompted. Drag & Drop files and finalize the disc.

About DataLocker

DataLocker is an innovative provider of encryption solutions. DataLocker products secure systems, media, external storage and cloud services for governments, military and enterprises around the world. Headquartered in Overland Park, Kansas, DataLocker devices combine superior convenience and usability with state of the art security. DataLocker is "Simply Secure." For more information, please visit datalocker.com

Simply insert EncryptDisc to get started

Set Password

Set your password with a hint question and answer. If you forget both your password and recovery hint you will be unable to access the encrypted files on EncryptDisc.

If autorun is disabled, double-click OpenEncryptDisc.exe to launch

Drag and Drop

Add folders and/or files by dragging-and-dropping the selected items onto a location in the EncryptDisc window

Ink Jet printable surface allows you to create a custom disc with your own input fields and Confidentiality Disclaimers

Finalize Disc

Click ok to write all the encrypted files to the disc. Does not require any third-party burning software.

Take advantage of DataLocker's custom printing services available with bulk orders. Contact us for more details.
