

Serial PCI Card

One External DB9 Port

Part No.: **158206**

Add one serial port with fewer conflicts.

Compatible with most RS232 peripherals, the Manhattan Serial PCI Card with one external DB9 port is an ideal solution for attaching a serial device — modems, barcode scanners, printers and more — through a single PCI card. Its high-speed 16C550/16C450 UART serial DB9 Com port fully supports PCI IRQ sharing even if accessed simultaneously to help save valuable resources for other expansion cards. Universal bus power design for 5 volts and 3.3 volts allows for greater variety of peripheral devices.

Easy Installation

Windows XP/Server 2003/Vista/7/8 32/64-bit compatibility, plug-and-play capability and automatic IRQ and IO address selection make installation easy to help avoid configuration conflicts with other devices.

Features:

- Adds one high-speed 16C550/16C450 UART serial DB9 Com port to desktop computers
