AT110 F2

The AT110 F2 delivers true server-class features and expandability along with best price-to-performance technology to ensure the success of your small-sized business. This single-socket tower server also features an 80 Plus® efficient power supply that saves energy while maintaining full productivity.

Smart Investment for Your Growing Business

Driven by a brand-new Intel® architecture along with greater memory capacity and higher performance, this tower server uses industry-leading 32nm processors that handle large workloads more efficiently. Flexible expansion slots and up to 8TB of space for data storage satisfy the demands of your growing business.

Meeting Business Needs With Best Value

The AT110 F2 is packed with dependable server-class hardware, including an integrated Gigabit Ethernet controller for speedy and safe data transmission, and built-in 6-channel SATA with software RAID 0, 1, 5 (optional) or 1+0 to ensure data security.

Fundamental Management, Easy Use

This server provides comprehensive management utilities, including Acer Smart Setup for rapid server configuration. In addition, front-panel system health LED indicators let you check the server at a glance.

Cost-Effective Expandability, Green Computing

The AT110 F2 is designed with a toolless chassis that enables easy component access, reducing maintenance and service costs. Also, this tower server is Energy Star® certified and equipped with an 80 Plus® power supply for maximum energy efficiency.
