

Tune Out The World. Tune In Your Music.

Music's power is undeniable: it inspires, refreshes and motivates, even helps us escape. Lead a hectic, fast-paced life? The stylish UltraFocus 8000 is your portal to music's rejuvenating benefits. The UltraFocus 8000 produces a truly amazing sound as easily on an airline or busy city street, as it will at home in front of your stereo system. In fact, thanks to SecureFit™ support, generously cushioned ear pads and Active Noise Canceling technology, you'll hear your music with extraordinary clarity and detail, without distortion even in locations with high levels of ambient noise. Polk's patented Dynamic Balance® driver technology, in combination with active noise canceling and passive noise isolation, produces an audiophile-grade listening experience.

In addition, an on-ear 3 button remote control and an in-line microphone enable you to use iPod®, iPad® and iPhone® anytime, anywhere. There's also push-to-hear ambient control that mutes the audio and amplifies outside sounds, so you can hear those around you without removing the headphones. Details that add to an enjoyable listening experience include an ultra-flexible, tangle-free audio cable, made of non-microphonic material, that eliminates exterior sound transfer, while a lightweight carbon fiber headband ensures a snug yet comfortable over ear fit.

Features

- **Audiophile Sound**—Stunning detail, full fidelity and deep bass to maximize performance.
- **Active Noise Canceling**—Battery-assisted true active noise canceling eliminates the distractions of the outside world (batteries included).
- **Push-To-Hear Ambient Control**—Mutes the audio and amplifies outside sounds so you can hear without removing the headphones.
- **Passive Isolation Technology**—Comfortable design surrounds the ear minimizing outside distractions.
- **Ultra Fidelity Dynamic Balance Transducers**—Polk's proprietary driver technology guarantees full frequency response while minimizing distortion.
- **3 Button Remote Control & Microphone**—Use your iPhone, iPod and iPad on the fly with in-line controls.

- **SecureFit Support**—Comfortable molded fit is designed to feel practically "invisible."
- **Ultra Flexible Tangle-Free Planar Audio Cable**—Avoid cable tangle and unwanted microphonics with oxygen-free cable.
- **StrainGuard™**—Kevlar core & computer designed transitional connections eliminate cable failure.
- **Gold-Plated 3.5 mm Connector**—Designed to fit the opening on most cases.
- **Reflective Carbon Fiber Headband**—Provides a lightweight, secure and comfortable fit.
- **Engineered For Durability & Comfort**—Made with the latest materials & performance technology to take punishment while staying comfortable.
