

20" High Velocity Air Circulator

This powerful 5-blade fan is ideal where high velocity air circulation is required. Large 20" fan size and attractive grey/black colour.

HIGHLIGHTS

- **3-Speeds** - Set to desired air circulation level
- **High Velocity** - Powerful 70W motor with fused UL Plug
- **5 Wing Blade** - Large 20" diameter
- **Adjustable** - Tilt fan head to desired angle
- **Safety Grill** - Made of durable molded plastic
- **Easy Assembly** - No tools required
- **cETL Listed**

With its large diameter 5 wing blade and powerful motor this high velocity air circulator is designed to improve air movement in large rooms or workspaces. Angle the fan head, to avoid direct contact with people and loose objects, and it will circulate the air to create a more comfortable environment.

Use in combination with your air conditioner and save energy. With the improved air flow your air conditioner won't have to work as hard.

Fan head adjusts 90° to direct air circulation. Built-in handle for portability and fused plug for safety.
