

# 0.3m (11in) Short Apple 30-pin Dock Connector to USB Cable for iPhone / iPod / iPad with Stepped Connector

Product ID: USB2ADC30CM

The USB2ADC30CM 0.3m Apple® (30-pin) Dock Connector to USB cable for iPhone®, iPod® and iPad® enables close-range syncing and charging of your iOS-enabled mobile digital devices, for situations where a longer cable would create clutter. Plus, the shorter cable design provides a portable solution that makes it perfect for carrying as a laptop accessory.

The USB to iPhone cable features a uniquely constructed stepped Apple Dock Connector, designed by StarTech.com. Unlike a regular connector, the exclusive stepped connector plugs into your iPhone, iPod or iPad, even when inside a protective case, avoiding the inconvenience of having to constantly remove the cover for every charge/sync.

This durable cable is Apple MFi certified and backed by our lifetime warranty to ensure dependable performance.

**Note:** If your computer USB port does not deliver sufficient power and you see a "Not Charging" message on your iPad or other Apple device, you can use this 0.3m 30-pin Dock to USB Cable with the [USB 2.0 Fast Charging Adapter](#) (USB2CHADP) in order to fast charge your devices.

### Certifications, Reports and Compatibility

### Applications

- Charge or sync your 30-pin Apple devices at shorter distances, with reduced clutter
