

Wireless Infrared IR Remote Control Extender - 330ft (100m)

StarTech ID: IREXT2

The IREXT2 Wireless IR Extender Kit lets you extend an Infrared signal from a remote control by up to 115ft (35m).

Using a radio frequency that can operate through walls, doors, and around corners, the remote control extender lets you control your A/V devices from greater distances or even from another room. This adds configuration versatility for multi-room or outdoor applications, without having to move within range of your remote controlled device.

The remote control extender is comprised of two units - one local IR remote extender, which accepts the incoming IR signal from the remote control and wirelessly transmits it to the second IR remote control Receiver unit positioned near the controlled device.

The IREXT2 Infrared Extender is backed by StarTech.com's 2-year warranty and free lifetime technical support.

Applications

- Control any IR-equipped consumer electronics (e.g. DVD players, satellite receivers, cable boxes) products from a different room

Features

- IR signal extension up to 35m
- Compatible with any IR-equipped device
- Kit includes both extender and receiver units

Technical Specifications

Warranty	2 Years
Ports	1
Cabling	Wireless Ethernet
Frequency Range	IR: 30-60kHz
Max Distance	35 m / 115 ft
Frequency	433.92 MHz +/-1 MHz
Product Length	4.1 in [103 mm]
Product Width	2.6 in [67 mm]
Product Height	1.4 in [35.3 mm]
Product Weight	9.4 oz [266.7 g]
Input Current	0.2A
Input Voltage	100~240V
Power Adapter Included	Two
Output Voltage	12 DC
Output Current	0.2A
Operating Temperature	0°C to 43°C (32°F to 109°F)
Storage Temperature	-20°C to 60°C (-4°F to 140°F)
Shipping (Package) Weight	0.8 lb [0.4 kg]
Included in Package	1 - IREXT transmitter
Included in Package	1 - IREXT receiver
Included in Package	1 - IR extender probe
Included in Package	2 - Power Adapter
Included in Package	1 - Instruction Manual
