Silver Storm™ Washable Keyboard

Includes Models STK503, STWK503, STK503P and STWK503P

According to a University of North Carolina study, "25% of hospital keyboards harbor the Super Bug MRSA, but daily disinfecting of the keyboards could reduce the risk of cross contamination." Now, the Association for Professionals in Infection Control and Epidemiology (APIC) includes "cleaning and disinfection of keyboards" for C. Diff prevention.

The SILVER STORM™ washable keyboard has been developed to help prevent the spread of infections, including MRSA and C. Diff. The SILVER STORM™ keyboard is 100% washable and can even be disinfected with bleach. As an added safeguard, it includes antimicrobial product protection. The combination of washable technology and antimicrobial product protection achieves the highest level of protection available in a true type keyboard today.

- Dishwasher Safe for Easy Cleaning
- Seal Shield™ Limited Lifetime Warranty
- Silver Seal™ antimicrobial product protection
- Waterproof Standard NEMA 4x / IP-66
- Plug-and-Play Installation
- Natural look and Feel with Full Travel Keys
- Patent Pending

ANTIMICROBIAL PRODUCT PROTECTION
