Why choose the IN2120a Series?

- Ultra-low purchase price
- High brightness and high contrast ratio
- Convert to be an interactive projector with optional LiteBoard adapter
- Wireless connectivity with optional USB adapter
- PC-less display from USB drive or 2GB of internal memory
- Display over HDMI or USB
- Present Office docs, video, audio, photos and more wirelessly from your mobile device (with optional adapter)
- Blu-ray 3D capable (over HDMI)

Easy Display from Any Device

Connect and present wirelessly from all your favorite devices with the optional wireless network adapter (SP-WIFIUSB-2) and free presentation app (EZ Display). Leave the cables at home!

Present photos, Office documents, PDFs, audio, video, a live camera phone feed, or from your computer, DropBox or the Internet.

High Brightness and High Contrast

The image quality of these projectors will not disappoint. 3500 lumens will give you bright, clear images with the lights on and the high 15000:1 contrast ratio adds sharpness with darker blacks and whiter whites.

You can also instantly dim the projector with the remote control to divert your audience's attention onto you and extend lamp life.

Preset modes quickly optimize the image quality when projecting on screens, whiteboards, and even beige walls.

3D

The IN120a series supports multiple forms of 3D – including HDMI, Blu-Ray, 3D broadcasting, video games and PC connectivity. All your audience needs are 144Hz DLP Link 3D glasses to seamlessly synchronize with the image for an awesome 3D experience.

Manage Over Your Network

Connect the projector to your network (via LAN port or optional wireless) and manage it remotely. Send important announcements or emergency notifications for instant display, set up notifications for low lamp life, schedule when it gets powered down, and more.

Crestron RoomView Connected and AMX Device Discovery technology is built into the projectors for easy connectivity, programming and control with those room control systems.

Connectivity

VGA x 2
HDMI 1.4
USB-A
USB Mini-B
Composite Video
RJ45/LAN

S-Video
RS-232
3.5 mm audio in x 2
3.5 mm audio out
Monitor out (VGA)

Make It Interactive

Plug in the optional LiteBoard adapter (HW-LBRADIO) to turn your wall into an engaging, collaborative interactive workspace. Control all your favorite PC or Mac applications from around in the room with the wireless LiteBoard Wand (sold separately: HW-LBWAND-01) just as you would with your mouse.

Optional LiteBoard adapter and wand is all you need for interactivity

Document Annotation

Free wireless presentation app (EZ Display) lets you annotate on documents you're presenting with a wide variety of colored pens and shapes and then save the changes.

No Computer Needed

Present photos, PPT presentations, spreadsheets, PDFs, audio, video, and more directly from a USB thumb drive or from the projectors internal 2GB of memory. Plus, you can control the presentations with your Android or iPhone/iPad with the free EZ Remote app.

Eco Blanking Saves Money

Instantly dim the screen to divert your audience's attention onto you with the Eco Blanking feature on the remote control.

Activate this feature when the projector isn't being used and lower the lamp's power usage down to 30%. This saves energy and significantly extends the life of the lamp, which saves you money.
