USB Powered Ultra-Portable Wi-Fi Router

The IOGEAR NetShair Nano ultra-portable Wi-Fi router is pocket-sized and converts any wired Ethernet connection to Wi-Fi for use with all your wireless devices. Powered by USB, the NetShair Nano plugs into your smartphone/tablet USB charger or into a powered USB port on your laptop and it's ready to go. Plus, the NetShair Nano's pass-through power port means you won't lose the ability to charge your mobile device. Never again be caught without a wireless connection while traveling!

High Speed Wireless-N

The IOGEAR NetShair Nano is 802.11 b/g/n compliant, supporting speeds of up to 150Mbps.

Easy Set-up using Free Apps for iOS or Android

The IOGEAR NetShair Nano can be set up to connect to the Internet with your smartphone or tablet using free NetShair Nano Apps for iOS and Android.

USB Pass-through Charging

The NetShair Nano's USB pass-through power port charges your smartphone or tablet, even when you are connected to the Internet.

How does it work?

1. Plug the NetShair Nano into a USB power source such as your computer's USB port, or your smartphone/tablet USB charger
2. Connect to the NetShair Nano Wi-Fi network
3. Launch the NetShair Nano app on your device, or open your laptop browser to connect to the NetShair Nano
4. Connect an Ethernet cable from your modem to the NetShair Nano*
5. Launch your device browser to access the internet

*Download the NetShair Nano app for iPhone®, iPod® Touch, and iPad® from the App Store or from the Google Play™ Store for Android™ Devices.
