# MC<sup>®</sup> 6 UTP Modular Cords

Siemon's Category 6 series of modular cords are key components to ensure optimum channel performance of our Category 6 UTP systems. A variety of product enhancements contribute to the cord's superior performance — including 250 MHz rated stranded cordage, a patented crosspair isolator and an innovative 360° crimp, which provides excellent plug-to-cable strain relief without causing pair deformation.

Modular cords feature high performance Category 6 cable for optimal flexibility and transmission performance, exceeding — Category 6 performance specifications

Clear boots and optional colour clips enable a single cord part number to be custom colour – coded

Integral latch guard protects plug from snagging when pulling through pathways or cable managers

> Internal load bar provides consistent terminations and ideal pair geometry

resistance requirements for both CM and LSOH

Jacket meets the flame

Boots feature an ultra slim design for high-density patching

Innovative 360° crimp provides excellent plug-to-cable strain relief without causing pair deformation

Patented metallic isolator inside plug for consistent, exceptional NEXT performance

C PIOPOL

Excellent Bend Relief Boot and integrated strain relief ensures proper bend relief, critical for Category 6 performance

**Colour Coding** Optional coloured clips enable field colour coding and can easily be snapped into place without having to disconnect cords
