

# HSM® Cutline G-Series Guillotines

## G3210/G4620/G3225/G4640

Trim every document to the favored size – even photos, film and other flexible material. The HSM guillotines consist of a solid base plate with maximum cutting lengths from 12.8" up to 18.1". The high quality cutting blade, the effective integrated clamping and the precise side stop inspire even professionals.

### The benefits of the guillotines of HSM:

- Precise cut due to solid cutting blade bracket
- Precise and hand guarded side stop for accurate cutting edges
- Handle ergonomically designed for optimal action of force
- High quality cutting blade made of hardened steel (except G3210)
- Solid base plate with scaling in cm/inch, angles and conventional/ special formats
- Easy to handle automatic, integrated clamping at the cutting edge with hand guard
- Stop buffer for a precise adjustment (except G3210)
- Foldable protective shield (all models)
- Easy to carry due to the grip at the side
- Easy removal of paper leftovers due to the integrated groove
