

12W USB WALL CHARGER

with Lightning Cable

The V7 12W Wall Charger with Lightning™ cable is perfect to use as a spare charger or replacement at home, or the office. The 12W charger is designed to charge Apple® devices with a Lightning connector. It has a foldable swivel plug for easy storage, plus the 100V to 240V input rating make it great for international travel. Never let your device run out of power again with the V7 12W Wall Charger. Comes with 3.3ft Lightning cable and is available in black.

Key Features:

- 12W Wall Charger with foldable plug, comes with Lightning cable
- Keep in your bag or at the office for easy charge and sync
- AC 100-240V input voltage ideal for international travel
- Charge your iPhone faster with 2.4A power
- Mfi certified compatibility for Apple devices with Lightning port
