Living-Room Keyboard K410

The easy way to navigate between your TV and computer.

- Built-in touchpad
- Regular key layout, with media focus
- Advanced 2.4 GHz wireless
- 1 year battery life
- Basic living-room design

The Logitech Living-Room Keyboard K410 allows you to wirelessly control your laptop when it's connected to the TV. It simplifies navigation in the living room by combining a keyboard and mouse into one device.

The built-in touchpad and familiar key layout make it easy to turn up the volume of your favourite video, browse the web, blog, chat and more, without getting up from the couch. The wireless connection is fast and reliable with a range of up to 10 metres (33 feet)*. Other features like one-year** battery life, media hot keys and a second left-click button makes it the ideal home-theatre or HTPC keyboard.

* Wireless range may vary with environmental and computing conditions.

** Based on typing 2 hours per day. Actual battery life will vary with use, settings and environmental conditions.
