

# TuneTap - Wireless Audio Receiver

GBNAR3

- Wireless Audio Receiver with NFC – Enables wireless connection to all Bluetooth compatible devices
- Enjoy the freedom of listening to your favorite music, online radio stations, podcasts or favorite videos wirelessly on your home or office speaker system
- Wirelessly connects with bluetooth enabled smartphones, tablets or laptops
- Near Field Communication (NFC) pairing technology allows you to simply tap any compatible device with the receiver for an instant wireless connection
- Flexible connections:
  - Optical (TOSLINK) output allows for digital audio connection to your Hi-Fi stereo or A/V receiver
  - 3.5mm output for convenient analog audio to almost any speaker system or A/V receiver

## Bluetooth Audio Receiver / Wireless Audio Receiver

Play your favorite music and movie audio wirelessly from your Bluetooth-enabled smartphone or tablet on your home A/V receiver or stereo. You now have the freedom to listen to your favorite music, online radio stations or favorite videos on your home sound system wirelessly. The IOGEAR TuneTap provides both 3.5mm audio and Optical (TOSLINK) outputs to accommodate your home audio system.

## Bluetooth Audio Connection

Great for users with iPad®, iPhone®, iPod®, Android™, Windows® Mobile and other smart devices that are Bluetooth enabled. This allows family and friends an easy connection to share and enjoy the music.

## NFC Pairing

If your smartphone or tablet supports NFC (Near Field Communication), you can enjoy a simpler way to wirelessly connect; just tap your device on the IOGEAR TuneTap for an instant connection to start streaming your music or video / movie audio; up to 30ft away.\*

\*For NFC pairing feature, your devices need to be Android 4.1 or later.

## TuneTap - Wireless Audio Receiver

### How does it work?

- Connect the power adapter to TuneTap and plug it into a power outlet
- Connect the TuneTap to a TOSLINK or 3.5mm audio input on your home stereo
- Pair with your Bluetooth smart device
- Enjoy music from your smartphone / tablet / laptop with friends and family

### Product Requirements

- Compatible with all Bluetooth enabled devices, including:
  - Android™ Smartphone / Tablet
  - iPod® touch (2nd generation and later)
  - iPhone® (3G and later)
  - iPad® (all models)
  - Windows® Phone / Tablet
  - Works with any music player with Bluetooth audio (A2DP Profile)
- NFC Phones:
  - For NFC-enabled phones with Android OS 4.1 and higher

### Package Contents

- 1 x TuneTap Wireless Audio Receiver
- 1 x Power Adapter
- 1 x 3.5mm to RCA cable
- 1 x Quick Start Guide
- 1 x Warranty Card
