

# AMR4S+

## Quad Monitor mount with desk stand

This incredibly versatile product supports up to four 24" monitors each with a maximum individual weight of 15.5 lbs. Not only will this strong and sturdy mount have no trouble holding a VESA certified 75x75 or 100x100 monitors, (fitting the above criteria), it is also extremely adjustable!

- Each monitor can be placed at a different height to accommodate different sized monitors.
- All four monitors have 360° rotation, meaning landscape, portrait, or anything in-between (although the central two may be limited due to monitor dimensions).
- Also included is a +/- 20° tilt in any direction Individually for ALL 4 Monitors, ensuring maximum user comfort.
- Height adjustable, with a maximum height of 12.8" (from the desk to the centre of the mounting device) for the first row and a max height of 28" for the top monitor.

This mount works with a classic stand structure, a strong and sturdy solution for clearing up some desk space and increasing productivity!

## Specifications
