

 **Green Ethernet
Gigabit Switches**

- Lifetime warranty*
- 5/8/16/24 gigabit Ethernet ports
- 802.3az Green Ethernet technology
- Automatic energy conservation feature reduces total power consumption
- Loop prevention or detection (depending on model)
- Auto-MDIX provides fast plug and play setup with any Ethernet cable
- Durable metal chassis
- Internal power supply
BS-GU2008P uses external power supply
- Fanless, compact design offers silent and reliable operation (on BS-GU models)

Multi-Port Gigabit Unmanaged Switches

Buffalo's BS-GU series of multi-port gigabit switches and BS-GUP series of multi-port gigabit PoE switches offer an easy and cost-effective way to extend your business network at gigabit speeds and the convenience of Power over Ethernet (BS-GUP series). Plug and play installation requires no additional software or configuration. Each auto-sensing gigabit port automatically detects and configures the correct connection while full duplex operation and optional jumbo frame support provide maximum performance.

Buffalo's multi-port gigabit switches include power saving features like 802.3az Green Ethernet technology and an energy conservation feature that monitors the activity status of each port to reduce the total power consumed, therefore reducing related operational costs.

Gigabit speeds, eco-minded features and a lifetime warranty make Buffalo's BS-GU and BS-GUP series of multi-port gigabit switches a perfection network extension solution for your office.
