

VisionTek®

VisionTek DataVault 3S

VisionTek Part# 900747

The stackable digital media storage solution that safeguards your valuable files.

Your digital life keeps expanding and with it comes an accumulation of various media types holding your precious photos, music, videos, and documents. Instead of just tossing your hard drives, SSDs, and flash cards into a desk drawer where they can become damaged and unreadable, protect them with the DataVault 3S. Featuring two interlocking cases with separate identification label areas, DataVault 3S allows you to safely store your media and quickly access it when needed.

STORE: Offers affordable organization of various media types with convenient access.

SAFEGUARD: Tough ABS plastic and ESD foam provide a durable, anti-static environment.

STACK: Add additional cases as your media storage needs grow.

SPECIFICATIONS

- **Number of Cases:** Two
- **Storage Capabilities:**
 - Case One (without organizer insert) holds any 3.5" drive or up to four 9.5mm 2.5" drives or up to six 7mm 2.5" drives.
