

# Q Tablet

Powerful, affordable and ready for learning

Part#: INP-120Q-ED

**InFocus**  
Collaboration That Works

The InFocus Q Tablet gives students the performance they need to maximize learning—at a price low enough to outfit your entire school. Students and staff can cut down on the hardware they carry but still access all the tools they need. That includes built-in apps for presenting and interacting using InFocus projectors and displays.

**Screen size:** 10.1"

**OS:** Windows 8.1 Pro

**Battery Life:** 8 hours

**Connectivity:**  
USB 3.0, SD card slot

**Processor:** Intel Atom™  
1.8 GHz quad-core

## Perfect size and easy-on-the-eyes 10.1-inch touchscreen

It's small enough to tote in a backpack, and big enough to handle note taking, reading, email, Web browsing and one-on-one tutoring. An LCD with 1280 x 800 resolution and in-plane switching (IPS).

## Flexible and familiar Windows 8.1 operating system

Designed for touch, Windows 8.1 Pro provides an elegant interface that everyone knows how to use. Students can personalize the start screen and then flow smoothly between apps. The Windows 8.1 OS also enables fast connection to school domains.

## Powerful, responsive Intel quad-core processor & 2 GB RAM

The Intel Atom 1.8 GHz quad-core processor provides plenty of horsepower for heavyweight multitasking. Combine that with 2 GB of RAM for rapid response when you're opening or closing apps or switching between them.

## Lightweight, comfortable design

At only 1.5 pounds, the InFocus Q Tablet goes anywhere, including class, study sessions, lunch and home. To transfer data to a home computer, just use a USB drive or SD card.

## View and share content

Free apps for the Q Tablet provide easy presentation and collaboration using wireless displays and projectors:

- **EZ Display** presents media from the Q Tablet to a wireless-enabled projector or display (via SP-WIFIUSB-2 adapter). Show Word docs, PDFs, photos, video and more. Also annotate documents with a variety of colored pens and shapes, and then save the changes.
- **ControlView** duplicates the InFocus Mondopad desktop on the Q Tablet to give presenters full touch control.
- **Present2** replicates the Q Tablet's screen on Mondopad for presentations.

Plus, free trials are available for these valuable InFocus apps:

- **BigNote** turns your tablet into a full-featured electronic whiteboard.
- **BigConnect** lets you make and receive SIP video calls from the tablet.

## Specifications\*

### INP-120Q-ED

Display	10.1" 1280 x 800 IPS
Touch	5-point touch, 10-point aware
Operating system	Windows 8.1 Pro (32-bit)
Processor	Intel Atom™ Z3735F 1.8 GHz quad-core
