

It's time for

Designed to impress, priced to please.

Value-priced meets kid-friendly.

Introducing Young Time™ Furniture –

a complete line of early learning classroom products designed to help you get the furniture you need at a price you can afford.

For this value-priced line, we've kept costs to a minimum while still maintaining the integrity necessary for the rigors of classroom use. The result is a product line that's not only value-priced, but built with the key features that you need most.

We build our furniture with durable laminate surfaces, thermo-fused edgebanding and rounded corners. All products are safety tested and certified, meeting all the requirements of the Consumer Protection Safety Improvement Act (CPSIA).

As an **American manufacturer**, Young Time doesn't have to spend money shipping products halfway around the world. That lets us put our resources into quality materials. When you compare the features, materials and workmanship, Young Time is clearly superior to competing imported products. That's why we're confident enough to back all our products with a full lifetime warranty.

Now, with Young Time furniture, you can afford to outfit your classrooms with well-designed, American-made products.

Features that focus on classroom safety.

Laminate Surfaces.

To improve durability and appearance, surfaces feature tough, scratch-resistant laminates. Laminated surfaces are also easy to clean and prevent moisture from seeping into and damaging substrates.

Thermo-fused Edgebanding.

The rigors of classroom activities can wreak havoc on furniture that's not properly sealed. Young Time's thermo-fused edgebanding works to seal out both moisture and germs. Competitive products have open, unsealed edges that are susceptible to expanding, warping and delamination.

Rounded corners.

Not only are rounded corners more attractive, they're safer for kids in the classroom.

Recessed Backs.

Vertical and horizontal dividers extend through the unit and backs are inset to increase stability and durability. On ready-to-assemble products, the backs slide into grooves for easy assembly.

casters.

Our Caster Kit adds mobility to your Young Time™ product and is easy to install! Simply check to see if your product is compatible with Caster Kit A or B and then purchase the corresponding kit.

Superstrong screws.

Super-strong screws provide strength throughout the product. With extra high ribs and a durable head, these screws grip, grab and hold tight. Included hex-wrench makes assembly a snap.

Keeping things organized and economical.

YOUNG TIME™ SECTIONAL CUBBIE STORAGE

The ultimate storage solution! The Sectional Cubbie Storage unit provides exceptional versatility and ample storage. Add optional "Caster Kit - A" to make this unit mobile (sold separately). Lifetime warranty. CPSIA and CARB compliant! Made in the USA!
