It does what it says on the fridge.
At Lec we have developed an inspiring collection of products, offering style, functionality and a range of choice.

By drawing on over 70 years of experience, we’ve built our collection around your needs. Whether it’s capacity and durability for the family home, compact designs for smaller properties, or style and elegance for the modern apartment, there’s a Lec product for you.

And now, as winners of the Queen’s Award for Enterprise, there has never been a better time to buy from Lec. What’s more, all our products now come with 1 year parts and 1 year labour warranty for extra peace of mind.

Lec’s first class customer care service has seen the brand win the much coveted Total Excellence Quality Customer Care award four times. Lec’s UK-based customer call centre employs 130 operatives and 200 service engineers.

Our team of experts can be contacted six days a week, our lines are open Monday to Thursday from 8.30am to 5.30pm, Friday from 8.30am to 5.00pm and Saturday from 9.00am to 1.00pm.

As a responsible manufacturer, we take great care in ensuring our products offer the best possible performance without costing the earth. That’s why our fridges and freezers are HFC and CFC free and are A+ rated for energy efficiency.

What are HFC and CFC?
HFCs (hydro-fluorocarbons) are generally colourless and odourless gases that contribute to the greenhouse effect by absorbing infrared radiation. CFCs (chlorofluorocarbons) are gases that cause damage to the ozone layer in the Earth’s atmosphere.

4* star freezing is the highest level of freezing performance. Freezers with a 4* rating will freeze food at a temperature of -18ºC or below, meaning that the freezer can freeze fresh food and store frozen food for longer.

Fast freeze is as simple as it sounds. It reduces the time it takes to freeze items by increasing the freezing power. All Lec products are designed with the environment in mind, so this function still offers a high level of efficiency.

Our water through door dispensers do not require plumbing. Available in white, black and silver, a water reservoir is fitted inside the door so you don’t lose valuable fridge space.

As a responsible manufacturer, we take great care in ensuring our products offer the best possible performance without costing the earth. That’s why our fridges and freezers are HFC and CFC free and are A+ rated for energy efficiency.

Finding Your Perfect Product

We’ve made sure we have a range of products to suit all your needs and requirements...

No one does energy saving like Lec

Ladies and gentlemen, A+ energy rated refrigeration is here! Allow us to introduce our fantastic range of products that really set the standard.

When it comes to our appliances, we concentrate on the things that really matter. Like developing A+ energy rated products, so whether you’re chilling butter or joints of beef, you can be sure that your Lec is doing its job in the most efficient way possible. It might not mean a lot to some but to us, keeping your costs down is huge and that’s why we’re proud to announce that our entire range is now A+ energy rated.

*Savings differ with each appliance. Based on comparing it to a 6 year old appliance.
A fridge freezer to fit every kitchen.
