

DigiEasel

40-Inch Interactive Whiteboard & Display

Ready to capture and
share your ideas
wherever and
whenever they occur

The professional alternative to paper, ink, and dry-erase

Part #:s: INF4030, INF4032

Draw, write, and capture notes or share your device's screen on DigiEasel's bright, colorful 40" interactive touch display—all at an unbeatable price.

DigiEasel's versatility helps you collaborate and prepares you to capture the next big idea, whenever or wherever it strikes.

Key Features

- Beautiful 1080p capacitive touch display in portrait or landscape orientation
- Draw on a massive whiteboard canvas and save and share the results
- Multiple colors, shapes and backgrounds are available to help you communicate your ideas
- Wirelessly display your device's screen or browse the web (INF4032 only)
- Display your notebook via HDMI, VGA, or component video
- Impress your visitors with a professional, high-tech tool that's fun to use

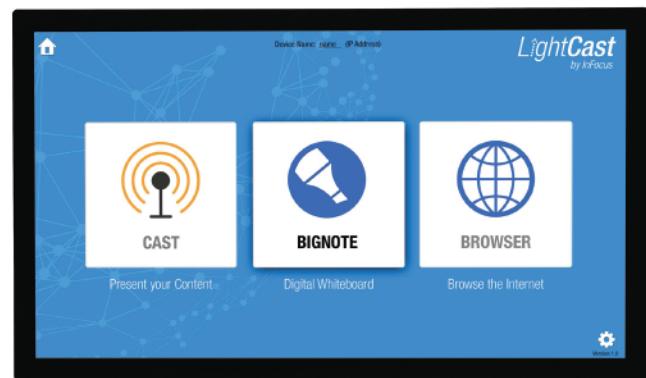

Use It Anywhere

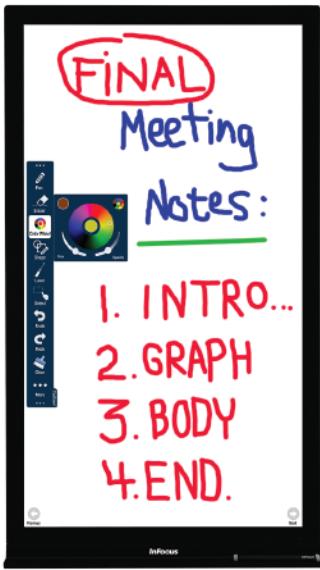

Great ideas and conversations can happen anywhere, anytime. Be ready to capture that information with DigiEasel. At 40 inches, DigiEasel is our most versatile interactive whiteboard and display. Choose from portrait or landscape mode to fit the need of any boardroom, classroom, huddle space—or anywhere you collaborate.

Go Digital for a Great Value

Leave those smelly pens, stained dry-erase boards, and warped flip charts behind. DigiEasel elevates your meeting space with the professional look and technological power of an interactive whiteboard at an ultra-low cost. Make collaboration easier and more efficient with a whiteboard display solution for today's fast-paced digital world.

INF4032 model shown above

The DigiEasel platform can react to your presence just by lifting the stylus from its docking station.

LightCast

LightCast Technology

Upgrade to the DigiEasel with LightCast (INF4032) to enhance your whiteboard with additional tools for creativity and collaboration. LightCast technology enables wireless content sharing, web browsing, and file management with Cloud support for easy access to your files.

Cast Your Screen

Don't huddle around a tiny screen with your team. Quickly cast your device's screen onto the DigiEasel and collaborate with ease.

- Works with Android, Windows, and Apple iOS or OSX devices
- Cast using your device's native Miracast (Android or Windows) or AirPlay (Apple) protocol
- Use the InFocus LightCast Sender app to cast from your device and annotate on the content you're sharing, helping people to follow along with a presentation or capture new ideas

Browse the Web

Access the world of online content and tools directly from the DigiEasel with LightCast's built-in web browser.

- Connect the DigiEasel with LightCast to your network via LAN or WiFi
- Easily share cloud content using built-in bookmark settings
- Quickly access file sharing platforms, such as DropBox or Google Docs

Get the Most Out of Your Whiteboard

Stop taking photos of your old dry erase board and step up to a digital whiteboard. You'll never lose an idea and your meetings will be more efficient and productive.

- Capture and save whiteboard notes electronically
- Save, email, or print information directly from the DigiEasel (INF4032 only)
- The whiteboard scrolls seamlessly as you need additional space, allowing room for free-form drawings, diagrams, and notes
- Write or draw with a complete collection of digital pens, highlighters, shapes, and lines from a continuous spectrum color wheel
- Use it with or without a stylus
- Paste images onto the whiteboard or add useful custom backgrounds, such as a grid or a calendar
- 16-point touch allows multiple people to write or draw at the same time
- No calibration required

Touchscreen Display

Your DigiEasel is also a touch-enabled display device for your computer. Simply plug in your PC, Mac, or Chromebook and control it from the display via touch. Plus, numerous ports are available to connect the DigiEasel with other systems and peripherals.

- Display via HDMI, VGA, or component video and enable touch via USB
- RS232 port for integration with room control systems
- Audio input and output ports allow for quality sound
