Wirelessly stream your tablet or smartphone onto a bigger screen.

WPCTV3000

In the Classroom

The **Diamond WPCTV3000 – Stream2TV** is a device that wirelessly streams content from your tablet to a projector or big-screen TV in 1080P HD quality. It allows you to mirror what's on your tablet and also extends views from your PC, Mac or laptop. The Diamond WPCTV3000 is a great companion for all teachers to enhance daily lessons with exciting multimedia content, internet educational video programs, online lessons and live education events.

Not Just for Teachers

Students can also share their educational presentations and content with their entire class on the projector or TV from their laptops, desktops and Miracast enabled smartphones and tablets. Many students have access to their assignments and reports on their devices, the **WPCTV3000** gives each student the ability to display their reports and other content from their desk. The **WPCTV3000** can also be directly wired to the school's network or wirelessly paired to the school's access points.

At the Office

The **WPCTV3000** is also the perfect solution to enhance conference room meetings. Any Windows, MAC based PC or Miracast enabled tablet can stream wirelessly. With a one-of-a-kind conference sharing capability, you can take control over content shared with meeting attendees. Impress your colleagues and inspire more success with rich content presentations, live events and any other content you need to share on the projector or big-screen TV.

Your Curriculum Made Easy

The Diamond **WPCTV3000** effortlessly creates an environment where the curriculum just flows from your mobile device or PC.

This adapter wirelessly displays what's on your tablet, smartphone or laptop onto a large-screen TV or classroom projector. Now you can easily present lessons from your own mobile device by streaming quality educational content without having to be connected to wires and cables, leaving you to concentrate on what's important... teaching.

Optimized for Windows 10 and Mac OS

The Diamond **WPCTV3000** is optimized for use with Windows 10, 8.1, 8 and Windows 7 and is compatible with Android smartphones and tablets, iPhone, iPads as well as all laptops running Mac OS, so you can be confident with all of your devices being compatible.

What is Miracast?

Miracast is a standard for wireless connections from devices (such as laptops, tablets, or smartphones) to displays (such as TVs, monitors or projectors). It can roughly be described as "HDMI over Wi-Fi", replacing the cable from the device to the display. The Diamond **WPCTV3000** is Miracast-certified and can communicate wirelessly with the displays mentioned above.
