

10-Port USB Charging Station

10-port, 96W 12V 8A USB charging dock

Part No.: **406031**

Keep your portable devices fully powered and secure.

USB portable electronics place heavy demands on their batteries for power, but the Manhattan 10 Port USB Charging Station can help keep your tablets, mobile phones, digital cameras and other devices charged and ready to go. The 10 Port USB Charging Station plugs into any standard wall outlet and offers rapid charging for your portable devices via 10 USB charging ports. (The first eight ports each support 2.1-amp charging and the other two support 1-amp charging.) Advanced built-in circuitry helps avoid overcharging and short-circuiting that can damage and reduce the life of batteries and devices. The Manhattan 10 Port USB Charging Station is perfect for home, school and office use. It features 10 wide bays for securing most devices — with cases — while charging, and its convenient under-mounted bays store charging cables, keeping the countertop clean and clutter free.

Features:

- 10 port, front-mounted, USB wall charger for tablets, mobile phones and other portable devices
