AirSpeed Lite 'SuctionSeal' Pet & Car **ZANUSSI**

ZAN2211CI

SuctionSeal Technology

All-Surface Suction Plates concentrates airflow for deep cleaning suction power. As you move across carpet, hardwood or tile floors the plates raise and lower, creating a seal to maximize airflow for powerful cleaning performance. Whether it's surface dirt or debris hiding in crevices, it's sucked up and away without any scattering.

AirSpeed Technology

Unlike other vacuums, AirSpeed® Technology has two smooth tubes, featuring limited bends and turns. This allows more air to pass through the vacuum. The direct air path from floor to cup, decreases the distance for dirt to travel, which increases the amount of airflow for powerful suction.

Never Loses Suction

Zanussi has engineered SuctionSeal™ to provide maximum suction power longer than other types of vacuums.* Tested to strict industry standards, Zanussi's multi-cyclonic dust cup system never loses suction and maintains power as you vacuum your home.
