Green specifications

- Compliant to 2002/95/EC (RoHS)
- Lead-free soldered product

Accessories

- SpeechExec Transcribe software
- Quick start guide

Highlights

Foot control

With the easy-to-use footcontrol you now can handle all transcription functions with the foot.

Automatic download via USB

When plugged in, the Pocket Memo dictation recorder automatically downloads your audio files directly onto the computer.

Efficient handling

The SpeechExec software enables you to efficiently handle your sound files which makes retrieving your jobs fast, easy and convenient.

Professional transcription

The ergonomic design of the Philips foot control and headphones sets new standards in terms of usability in the professional dictation arena. Transcriptionists can stop and start dictations with only a slight movement of the heel, without lifting the foot unnecessarily, which both increases efficiency and makes the device a pleasure to work with.

Track work through job status

The professional SpeechExec software allows you to track your job status information. It grants you a clear view over your work in progress.

Priority setting

With the included priority setting option, urgent recordings get processed first.
