

YOUR MUSIC.
REDISCOVERED.
RELIVED. RELOVED.

Introducing R-Line by Roberts.

Premium audio speaker system with
wireless multi-room capability.

ROBERTS Powered by

Your music. Rediscovered. Relived. Reloved.

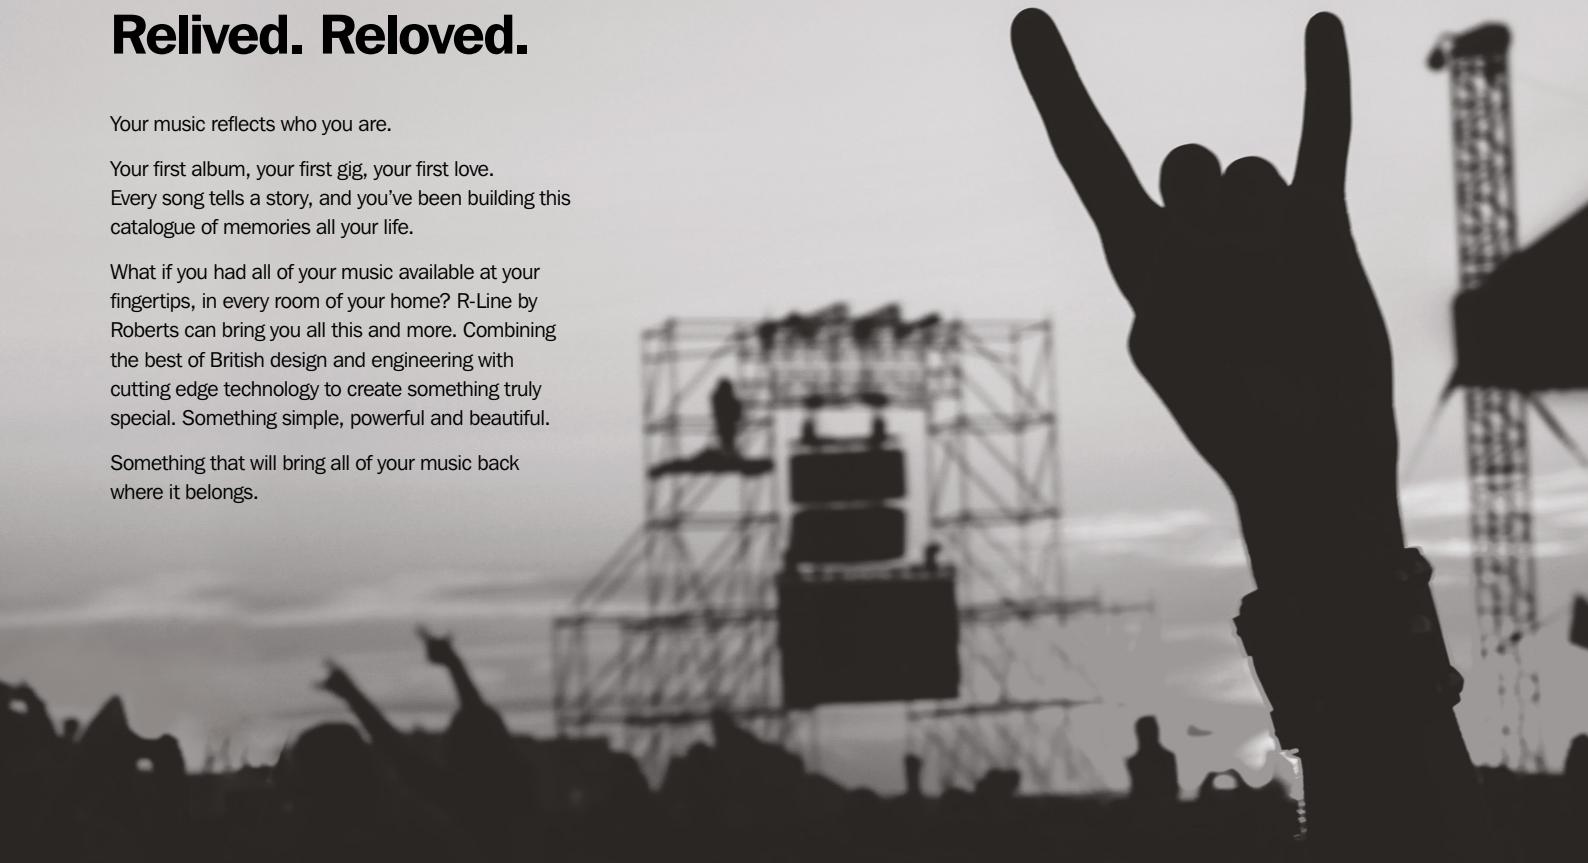

Your music reflects who you are.

Your first album, your first gig, your first love.

Every song tells a story, and you've been building this catalogue of memories all your life.

What if you had all of your music available at your fingertips, in every room of your home? R-Line by Roberts can bring you all this and more. Combining the best of British design and engineering with cutting edge technology to create something truly special. Something simple, powerful and beautiful.

Something that will bring all of your music back where it belongs.

Introducing R-Line by Roberts.

Use R-Line speakers individually or as part of a multi-room wireless streaming system. It's completely modular so you can add additional speakers as you require, in a configuration that best suits your listening needs.

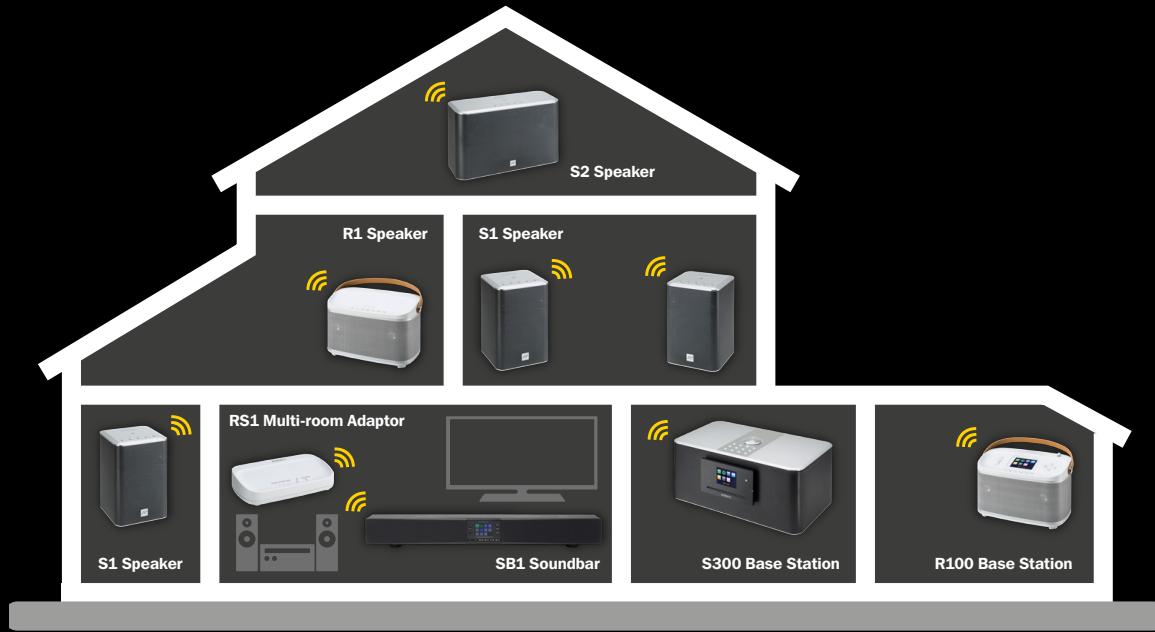

Play the same music throughout the house; different music in each room. Stream via Wi-Fi or Bluetooth, from your PC or smartphone.

Choose from thousands of Internet Radio stations; stream millions of tracks with Spotify, or listen to crystal-clear DAB radio. It's all here.

What about the sound quality? Well, that's something that has to be experienced. Roberts engineers have tuned and fine-tuned R-Line to ensure that whatever the music genre, the balance is perfect and every nuance is heard.

Plus, R-Line couldn't be easier to set up – the clever UNDOK™ smartphone app guides you through the entire process with step-by-step instructions, ensuring connection to your home network is a doddle. Use either UNDOK or the handy on-device buttons to easily control your R-Line multi-room components. It's all designed to effortlessly bring your music to you.

R-Line your home.

R-Line from Roberts gives you huge flexibility. Use in one room; or use in several. Play different music on individual speakers, or group together and fill your home with your favourite music tracks.

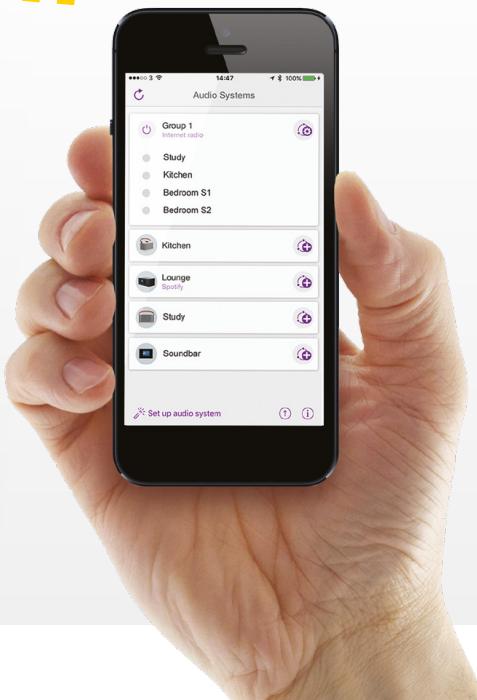

Control. At your fingertips.

Download and install the free UNDOK™ app to your iOS or Android device and enjoy a wealth of features:

- Easily set-up your R-Line components
- Select / control playback of your audio
- Control individual / multiple R-Line components
- Group and ungroup speakers with ease

UNDOK is compatible with Spotify Connect, so you can play your favourite music directly from Spotify to your R-Line multi-room component.

Download UNDOK for free from the Apple App Store and Google Play.

R100 Multi-room Base Station with Stereo Speaker

Multi-room. With a difference.

With its retro-inspired looks and rich room-filling sound, the R100 combines style with audio quality. Easily control your listening using the free UNDOK™ smartphone app, or via the full-colour display and on-device controls. Built-in FM, DAB, DAB+, Internet Radio and Spotify allow you access to a wealth of entertainment.

Bluetooth connectivity means you can easily stream music directly from your smartphone. Plus, an optional rechargeable battery means you can carry your favourite band around with you, so you won't miss a beat*.

*Battery sold separately.

Features:

- Stereo wireless speaker
- FM/DAB/DAB+/Internet Radio
- Bluetooth audio streaming from smartphone
- Spotify Connect
- USB port for easy playback of personal music files
- Stream your music collection from PC/Mac/NAS
- Full-colour display
- On-device control
- Full control via the free Android/iOS UNDOK app
- Wi-Fi and Ethernet connection
- Leather carry strap
- Use as a single speaker or as part of a multi-room set-up
- Option to use two R-Series speakers as a stereo pair
- Optional battery pack available (up to 12 hours playback from one charge)
- **Dimensions:** Height 160mm, Width 240mm, Depth 130mm

R1 Wireless Stereo Multi-room Speaker

Classic. With a modern twist.

The R1 offers a stylish retro-inspired design together with stunning sound quality.

Use it on its own, as a wireless speaker; or as the perfect companion to the R100, acting as a left or right speaker in a stereo set-up.

Bluetooth connectivity means you can easily stream music from your smartphone, direct to the speaker. Built-in Internet Radio and Spotify allow you access to a wealth of entertainment. Plus, an optional rechargeable battery means you can carry your favourite sounds around with you, so you'll never miss a second*.

*Battery sold separately.

Features:

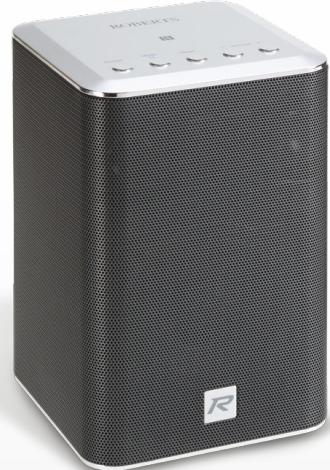

- Stereo wireless speaker
- Bluetooth audio streaming from smartphone
- Spotify Connect
- Internet Radio
- USB port for easy playback of personal music files
- Stream your music collection from PC/Mac/NAS
- On-device control
- Full control via the free Android/iOS UNDOK™ app
- Wi-Fi and Ethernet connection

- Option to use two R-Series speakers as a stereo pair
- Optional battery pack available (up to 12 hours playback from one charge)
- Dimensions:** Height 160mm, Width 240mm, Depth 130mm

S1 Wireless Stereo Multi-room Speaker

Small but mighty.

The S1 delivers amazing stereo sound for a speaker of such compact size. It can be configured as a standalone stereo speaker, or used with another S1 speaker to create a perfectly synchronised stereo pair.

Bluetooth connectivity with NFC means you can easily stream music from your smartphone, direct to the speaker. Built-in Internet Radio and Spotify allow you access to a wealth of entertainment.

Features:

- Stereo wireless speaker
- Bluetooth audio streaming from smartphone
- NFC for easy pairing
- Spotify Connect
- Internet Radio
- Stream your music collection from PC/Mac/NAS
- On-device control
- Full control via the free Android/iOS UNDOK™ app
- Wi-Fi and Ethernet connection
- Use as a single speaker or as part of a multi-room set-up
- Option to use two S1 speakers as a stereo pair

Dimensions: Height 185mm, Width 120mm, Depth 120mm

S2 Wireless Stereo Multi-room Speaker

Rich, room-filling sound.

The compact size of the S2 belies its power to deliver an astonishing sound experience with deep bass, even in a large open room. Use as a companion to the S1, S300, or by itself. Whatever your requirements, the S2 is sure to deliver.

Features:

- Stereo wireless speaker
- Bluetooth audio streaming from smartphone
- NFC for easy pairing
- Spotify Connect
- Internet Radio
- Stream your music collection from PC/Mac/NAS
- On-device control
- Full control via the free Android/IOS UNDOK™ app
- Wi-Fi and Ethernet connection
- Use as a single speaker or as part of a multi-room set-up
- Option to use two S2 speakers as a stereo pair
- **Dimensions:** Height 185mm, Width 290mm, Depth 120mm

S300 Multi-room Base Station with Stereo Speaker

Our flagship model.

The S300 is both powerful and beautiful; intuitive and feature-packed. Its depth and richness of sound sets a new standard for home audio quality; boasting a full-colour display, on-device controls, FM/DAB/DAB+, Internet Radio, Spotify, USB and SD card playback. Bluetooth connectivity with NFC means you can easily stream music directly from your smartphone. There's even a CD player.

Every curve, every button, every single element has been designed, crafted and polished to perfection.

Features:

- Stereo wireless speaker
- FM/DAB/DAB+/Internet Radio
- CD Playback
- Bluetooth audio streaming from smartphone
- NFC for easy pairing
- Spotify Connect
- USB & SD ports for easy playback of personal music files
- Stream your music collection from PC/Mac/NAS
- Full-colour display
- On-device control
- Full control via the free Android/iOS UNDOK™ app
- Wi-Fi and Ethernet connection
- Use as a single speaker or as part of a multi-room set-up
- **Dimensions:** Height 190mm, Width 420mm, Depth 240mm

SB1 Multi-room Wireless Soundbar with Integrated Subwoofer

Your entertainment. Enhanced.

The SB1 takes audio quality from a soundbar to the next level.

Whether you're listening to music, TV, movie or game soundtracks, the acoustically-tuned wooden cabinet and integrated subwoofers provide an incredibly powerful and accurate audio experience.

Bluetooth connectivity means you can easily stream music from your smartphone, direct to the soundbar. Built-in Internet Radio and Spotify allow you access to a wealth of entertainment.

Features:

- FM/DAB/DAB+/Internet Radio
- Bluetooth audio streaming from smartphone
- Spotify Connect
- Stream your music collection from PC/Mac/NAS
- Full-colour display
- On-device control
- Full control via the free Android/iOS UNDOK™ app
- Wi-Fi and Ethernet connection
- Use as a single speaker or as part of a multi-room set-up
- **Dimensions:** Height 115mm, Width 900mm, Depth 165mm

RS1 Wireless Multi-room Adaptor

Your Hi-Fi. Upgraded.

The RS1 easily connects to any audio equipment - Hi-Fi, Radio, Speaker etc. - with an auxiliary input; bringing all the benefits of the R-Line system to your existing set-up.

Access Spotify, Internet Radio, music files on USB and much more. You can easily control all of these additional audio sources via the free UNDOK™ smartphone app. Plus, you'll now be able to add your existing audio equipment to a multi-room group with other R-Line components.

Features:

- Connects to any audio equipment with an Auxiliary Input
- Use your existing audio equipment as part of a multi-room set-up
- Spotify Connect
- Internet Radio
- USB port for easy playback of personal music files
- Stream your music collection from PC/Mac/NAS
- On-device control
- Full control via the free Android/iOS UNDOK app
- Wi-Fi and Ethernet connection
- Analogue and Digital output
- Analogue input
- Dimensions: Height 40mm, Width 165mm, Depth 95mm
