Description

The U022-006-COIL USB 2.0 Hi-Speed A/B Coiled Cable (M/M) connects your computer, laptop or other compatible USB-A device to a USB-B peripheral, such as printers and scanners. This 6-ft. (1.83 m) cable supports data transfer rates up to 480 Mbps for both low- and high-speed devices, including multimedia applications.

The specially coiled cable takes up much less space than a regular 6-ft. (1.83 m) cable. It also resists tangles and knots, making it convenient to store in your car or carry in your purse, backpack or laptop bag.

Molded nickel-plated connectors ensure excellent conductivity. Integral strain relief ensures the cable and connectors last a long time. A rugged PVC jacket protects twisted 28 AWG data lines and 24 AWG power lines.
