intel inside™

Shuttle's DH9 All-in-One computer includes a 19.5-inch High Definition 10–point touch screen and is powered by an Intel® Braswell N3050 dual-core processor or Intel® Broadwell-U i3 5015U. This All-in-One PC is perfect to power kiosks, POS and queuing systems for retail, wayfinding, small-office/home-office computing and other interactive applications. The DH9 stands out from other AIO's with its optional rechargeable battery as backup in case of power outages. It is also includes a stand and there is an optional VESA Mounting plate for easy wall installation.

All-in-One Design

The DH9 is a complete computing solution and does not require a mouse and keyboard, making it particularly suitable for interactive kiosks and point-of-sale applications. Simply utilized the included stand or install it on a wall with an optional VESA Mounting plate.
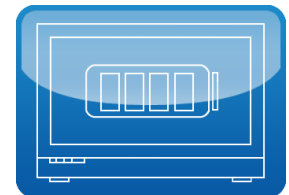

Capacitive Multi-Touch Screen

The DH9 includes a large19.5" high definition (1600 x 900) LCD display with an 16:9 aspect ratio. The 10-point multi-touch functionality utilizes capacitive technology for extra-vivid bright viewing, responsive touch and has a high level of color accuracy.

Rechargeable Battery Option

The DH9U3 offers a rechargeable backup battery option, with up to two hour of battery power in the case of sudden power outages.
