H7 Series 4K UHD HDR SMART TV

Model # 50H7D

## I'm a work of genius

With four times more pixels (8.3 million) compared to standard high-definition TVs, the H7 Series 4K Ultra HD HDR Smart TV gives you a crystal-clear picture. HDR\* technology elevates the brightness and colors while the local dimming backlight feature increases bright and dark areas of the screen for sharper contrast. Use the UHD Upscaler to increase the resolution of HD content or press the 'One-touch' hot keys on the premium remote to quickly access your favorite shows. Jam to award-winning sound by dbx-tv® and enjoy the popular built-in apps.

### 4K resolution and HDR-compatible

Loads and loads of pixels—we're talking 8 million—of 4K UHD (3840 x 2160p) resolution. Add that to HDR\* technology and you get a more vibrant picture full of images that have greater depth and feel so real that you want to reach out and touch them. Thanks to all of this tech, you get a brighter, clearer, more vibrant picture.

### One-touch hot keys

This smart TV will always remember where you left off in a show, is always connected to the Internet and has one-touch hot keys that launch select on-demand services.

### 4K Upscaler

Don't get rid of your DVD collection. Experience your favorite 1080p resolution movie in a new way. The upscaler will convert your movie in or near 4K to give you a crystal-clear picture.

### Popular, built-in apps

Can't get enough of Netflix or Facebook? No worries. All your favorite apps are pre-installed and ready for some serious binge time.

### Numerous inputs

We simplified our smart TV by pre-installing numerous apps for you. And we made it easy to connect external devices with seven (7) convenient ports including HDMI, USB and many more.

### Award-Winning Audio Technology

Pick up every sonic detail, too, with award-winning sound, integrated by dbx-tv®.
