

Model DS6600

Accessory Handset with Caller ID/Call Waiting

Make and Receive Landline and Cellular Calls

Connect to BLUETOOTH® wireless technology-enabled cellular phones to make and receive cellular calls with the ease and comfort of a home phone system. Avoid the mad dash to catch a cellular call before it goes to voicemail.

Eliminate Cell Phone Dead Spots at Home

Just place the base unit where cellular reception is best. Then enjoy the freedom to make and receive cell calls using your cordless handsets anywhere in your home.

Mobile Notifications

Know when your Android mobile phone receives a text, e-mail or social media update. Each handset beeps and displays which kind of message was received.

Additional Features
