# High-Speed HDMI Cable, Gripping Connectors, 4K @30Hz (M/M), White, 16 ft. (4.88 m)

MODEL NUMBER: **P568-016-WH**

Premium HDMI cable connects two 4K-enabled devices, including computers, Blu-ray™ players, video game systems, DVRs, video cameras, A/V receivers, monitors, projectors and televisions.

Description

The P568-016-WH High-Speed HDMI 4K Cable (M/M) is recommended for digital signage, video presentations, point-of-sale displays, classrooms and other applications that display Ultra High Resolution (UHD) video and multi-channel audio. It connects 4K-enabled source devices, such as computers and Blu-ray players, to 4K-enabled displays, such as monitors, projectors and televisions.

This cable supports video resolutions up to Ultra HD 4K x 2K (4096 x 2160) at 30 Hz and data transfer speeds up to 18 Gbps. When used with an Apple® digital AV adapter, it supports iPad2® video mirroring for playing games, watching videos or displaying presentations.

The 16-ft. (4.88 m) molded 30 AWG cable features premium foil and braid shielding to deliver reliable, error-free signal quality and protection from EMI/RFI line noise that can distort or destroy data. Gold-plated white connectors provide maximum conductivity and minimize data loss. Integral strain relief gives the cable extra flexibility, reduces stress, and helps the cable and connectors move freely without cracking. A flexible PVC jacket makes the HDCP Pass-Through cable easy to install in tight spaces.
