## Dual Video USB-C Ultra-HD 5K Docking Station

DS6950

## Expand Your View with **5K Resolution**

### Diamond Dual Video USB-C Ultra-HD 5K Docking Station – DS6950

Create a working desktop with expanded views of your PC. Expand your desktop view with the Diamond Ultra-Dock Dual Video USB-C Ultra-HD 5K Docking Station - DS6950. The Diamond Ultra-Dock 5K is compatible with both Type-C and Type-A USB Laptops, Desktop PC's and Mac OS X. With one single cable, you can easily connect your PC to two 4K Ultra HD 60Hz displays. Or you can use the dual DP ports and have a display with **5K resolution**. The Diamond Ultra-Dock 5K provides two 4K HDMI ports and two 4K Display ports, with six additional USB 3.0 ports, Fast Gigabyte Ethernet Port and a separate Mic input and Audio output.

## Featuring DisplayLink's 4K Plug and Display Technology

The Diamond Ultra-Dock 5K is everything you would want in a docking station. With its sleek and compact design, the Diamond Ultra-Dock features SuperSpeed USB 3.0, blazing-fast Gigabit Ethernet and an easy and convenient way to connect all of your peripheral desktop devices – all within easy reach, helping you keep your workspace organized and efficient at all times.
