# About AVID® Education

From headphones to boom boxes, AVID has your educational audio needs covered! AVID has been supplying headphones along with other audio products for over 50 years. We offer products developed in collaboration with educators to ensure they meet the rigors of an educational setting.

AVID offers a great selection of durable products that are perfect for high use areas. Many have replaceable foam earpads or easy to clean vinyl to make reusing them a breeze. We are continually expanding our line and modifying our products based upon what we have learned from educators to keep up with changing demands and uses. All of our educational products are stored in our Rhode Island warehouse which allows us to track our inventory easily and ship quickly after receiving an order.

AVID currently supplies headphones to schools for educational programs, language labs, theatrical productions, sports teams, and much more. Both public and school libraries have found them to be a valuable tool to pair with their audio books and computer programs, while museums supply visitors with AVID headphones for self-guided tours. AVID offers one on one personal service! Call or email to talk with educational sales representatives that can help you find the product that will best fit your needs.

# Lab Headphones, the AVID 800 Series

Our lab headphones are full-sized and designed for the rugged use that a computer lab encounters on a daily basis. These headphones are meant to be assigned per computer and used by multiple students in one day. Their vinyl earpads and headbands are easily cleaned by wiping down with a damp disinfecting cloth. The large earpads have extra padding that help block out surrounding noises to aid in concentration while students work as well as keeping the lab quiet. Headphones help students learn at their own pace without being distracted by other student's progress.

Color options not only add style to the labs but they aid in group learning and organization. Break students into groups easily by assigning a different color headphone to each listening center.

## AE-807

The AE-807 has the same rugged construction as the AE-808 without the volume control. Just use the volume adjustments on the computer or in the software.

## AE-808 USB

This model is the same as our AE-808 headphones with a USB 2.0 plug for superior sound and connectivity. It features a straight cord with in-line volume control.

## AE-808

This is the perfect lab headphone! Its ultra-durable construction allows for multiple uses all year long. They easily switch from stereo to mono sound and have both plug sizes making it compatible with a variety of equipment. The large, padded cushions surround the ear blocking out distracting ambient noises allowing the students to concentrate on their work.

Classroom packs include a storage case with 12 headphones. Listening centers include a storage case, 6 or 8 headphones and a jack box.

# Personal Headphones

## AE-711

The AE-711 is the perfect size to assign one to each student. Students are more careful with headphones when they think of them as their own property. The small size is easy for them to store in their desk or locker.

## AE-711VC

This is a lightweight, personal headphone, perfect for audio books and other audio applications. The adjustable headband fits a variety of students and volume control allows them to listen at their own comfortable level.

## FV-060

This is a medium sized headphone that works as a personal headphone or as a lightweight lab headphone. The earpads fit around the ear and help block out surrounding noises. The earpieces rotate flat making it easy to store in a desk or backpack.

## AE-711V

Like our AE-711 headphone but with vinyl earpads. The vinyl is easy to clean but also provides extra padding to aid in comfort. The earpieces rotate flat for easy storage.

## AE-08

This is a great choice as a basic low cost over the head style of headphone.

# Personal Headsets, the AVID 30 Series

Personal headphones are ideal for a variety of classroom computer activities. You will find the AE-35 easy to use and store. Lightweight and compact, it is sure to become part of your students' "uniform". The AE-36 features a -58dB microphone for computerized testing allowing students to record their answers in a clear and quiet manner. Our splitter is ideal for adapting a single-pin headphone to a dual-pin desktop. Our AE-39 headset is the solution for your student if they need a USB port to work on their desktop. The AVID 30 Series is ideal for language learning software, recording podcasts, presentation narration and many more applications. They are available in a classroom pack.

## AE-35

The AE-35 has the exact same features as our popular AE-36 model except it has no microphone. Great for school, home or anywhere. Available in white or blue.

## AE-36

The AE-36 is the perfect match for devices with a single jack such as iPads®, Chromebooks® and more! The AE-36 has a single TRRS 3.5mm 4-conductor plug that operates both the Speakers and the Microphone. The braided nylon cord is resistant to chewing and the earpads are permanently attached to keep them from falling off during use.

## AE-39

The AE-39 has the exact same features as our popular AE-36 Model except it is equipped with a USB plug instead of the single TRRS plug. The AE-39 is available in grey only.

## TRRS Adapter

Want to use the AE-36 with a computer that has two jacks? That's easy with our TRRS Plug Adaptor. It takes a single TRRS plug and changes it to dual plugs giving you one plug for the microphone and one plug for the speakers.

***This item is sold separately.***

*Please see page 19 for more information on Classroom Packs.*

# Personal Headsets

Please see page 19 for more information on Classroom Packs and Listening Centers.

## AE-9092

This full sized headset has an in-line microphone and volume control. The microphone is conveniently located high on the cord and close to the user's mouth keeping voices and volume levels in labs quiet. The AE-9092 works great with devices that have a single jack such as iPads®, Chromebooks® and more! The AE-9092 has a single TRRS 3.5mm 4-conductor plug that operates both the speakers and the microphone.

## AE-18

This lightweight headset has a fully adjustable microphone and can adjust to fit students from first grade to adult.

## SMB-25VC

This full-sized headphone has comfortable earpads that surround the ear helping to block out ambient noises in the classroom, helping students concentrate on their lesson. The gooseneck microphone can be adjusted as close to the mouth as needed and can be moved up when not in use.

## AE-981

The USB plug on the AE-981 makes it a perfect headset for using language learning software. The USB plug offers excellent sound quality and removes the need for software to continually configure the microphone. The earpieces have soft padded earpads and the headphone comes with an extra pair of vinyl earpads.

# AVID 60 Series

## Full Size Sound in Half the Space

The AE-66 features an innovative hinge design that allows both ear cups to fold away into the headband. The AE-66 stows away easily in classrooms and storage lockers that don't have space to spare. However, the AE-66 does not compromise on sound quality; vinyl ear pads and full-size speakers combine to produce a high-fidelity sound that enables students to listen to audio instruction with unmatched clarity.

## High Comfort Padding

AVID found some of the most comfortable ear pads available in the industry and put them in one of the most highly adjustable headsets available. Additional headband padding also holds the AE-66 securely in place without compromising comfort or fit. By conforming to the ear extremely well, the AE-66 also offers superior passive noise reduction properties.

## Classroom Packs

For your convenience, AVID has made the AE-66 available in classroom packs of 24. The headphones are protected during transportation and storage in a durable hard case. This product complies with CPSIA and TPCH regulations.

Foldable cups for easy storage.

# AVID 40 Series

## Built Tougher than the Classroom

AVID knows that the classroom environment is one of the roughest places for any technology device. That's why the AE-42 is designed to be one of the most robust thin-profile headset solutions on the market. The headset has minimal moving parts and a ruggedized headband to withstand even the toughest mechanical abuse. The braided nylon cord is woven to exacting specifications that are designed to prevent even the most tenacious child from chewing the cord apart.

## Highly Posable for a Comfortable Listening Experience.

The AE-42 features a highly adjustable padded headband and repositionable ear cups which work together to provide an incredibly comfortable fit for children of all shapes and sizes. In addition, the soft-touch surface finish prevents scratches and other signs of wear from becoming noticeable, ensuring that the AE-42 looks as good in green or anthracite gray on the first day of use as it will during its whole lifespan.

## Classroom Packs

For your convenience, AVID has made the AE-42 available in classroom packs of 12. The headphones are protected during transportation and storage in a durable hard case.

This product complies with CPSIA and TPCH regulations.

## Passive Noise-Blocking Earmuff

Children with Autism or Auditory Processing Disorder often have a hard time with noise. Background noise is a constant nuisance and causes major difficulty when it comes to processing information and sorting the important from the unimportant.

Noise reducing headphones or earmuffs can come in very handy in loud spaces. Earmuffs can lower the overall decibel rate of background noise while still allowing your child to hear someone speaking to them.

### Where noise blocking can be helpful:

- School cafeteria
- Concerts or sporting events
- Situations where there are multiple conversations being held

## Assistive Technology

### AE-812

AMERICAN  
SPEECH-LANGUAGE-  
HEARING  
ASSOCIATION

This model features our innovated Automatic Sound Limiting technology. The sound automatically stops at 85dB which is deemed a safe listening level by the American Speech-Language-Hearing Association (ASHA). This prevents students from turning the sound up to unsafe levels and requires no monitoring by the teacher.

### NC-113

Active noise-cancelling headphones are extremely effective at electronically blocking ambient sound. The NC-113, AVID's noise-cancelling headphone, features extremely comfortable earpads allowing students to focus on learning while remaining calm and concentrated.

### AE-9092

Reading aloud helps struggling readers with comprehension. With the AE-9092, the student will be isolated from external distracting noise and able to read along with what is on the computer or single device screen.

### Ear Plugs

Provide quiet time to children with noise hypersensitivity to alleviate anxiety associated with classroom, cafeteria or gymnasium sounds. Whether your student suffers from hyperacusis, hypersensitivity to specific frequencies, phonophobia or misophonia, they will find relief with noise-blocking ear plugs allowing them to concentrate on the task at hand.

# Earphones

AVID's earbuds are a great budget-friendly option especially for higher grade levels and adults. Provide one pair per user for various computer based activities such as testing and listening to audio books. Their small size can easily be carried from lab to classroom.

## AE-215

This model has soft, flexible silicone eartips that fit comfortably in the ear. This helps block out surrounding noises keeping the student from having to turn the volume up too loud.

## AE-SPORT w/MIC

The AE-SportMic has an inline microphone for voice recognition and features flexible silicone eartips with 3 different sizes to ensure a comfortable fit. It has a single TRRS 3.5mm 4-conductor plug that operates both the speakers and the microphone. The small storage case allows students to take them from class to class.

## AE-5

This model is our most basic earbud. It is perfect for testing and other quick uses. It does not have eartips.

## JS-75

This model has small, soft foam eartips. It has a 6' cord which can reach even the back of computers.

## TT-3

The TT-3 has an attractive two-toned silver finish. Each pair is packed in a zip top silver storage bag. The storage bag has a hole at the top making it easy to hang and organize.

## AE-1M

The AE-1 offers superior sound quality and features a very sensitive microphone for use during testing and recording sessions.

## DX-992

The DX-992 offers fantastic sound quality and passive noise cancellation with comfortable silicone eartips. This model is available in retail packaging.

## AE-151

The AE-151 has a shorter 4' cord. It has soft foam eartips for extra comfort.

# Organization and Storage Solutions

Storage headphones are the ideal solution for easily assigning one headphone to each student. Each headphone has an adjustable headband and is the perfect size and weight to fit a wide range of grade levels. Included is a transparent bag with a slider closure and large plug adaptor. The bags are easy to be labeled by the teacher or they can be personalized by each student.

## AE-711A

The AE-711A is the perfect size to assign one to each student. Students are more careful with headphones when they think of them as their own property. The small size is easy for them to store in their desk or locker.

## AE-711VA

The AE-711VA is like our AE-711 headphone but with vinyl earpads. The vinyl is easy to clean but also provides extra padding to aid in comfort. The earpieces rotate flat for easy storage.

## AE-711VCA

The AE-711VCA is a lightweight, personal headphone, perfect for audio books and other audio applications. The adjustable headband fits a variety of students and volume control allows them to listen at their own comfortable level.

## FV-060A

This is a medium sized headphone that works as a personal headphone or as a lightweight lab headphone. The earpads fit just around the ear and help block out surrounding noises. The earpieces rotate flat making it easy to store in a desk or backpack.

Save money and order personal headphones for each student with an AVID Classroom Pack.

## AVID Classroom Pack

AVID's most popular models are available in Classroom packs, containing up to 30 headphones. Look for the Classroom Pack icon next to your favorite headphone. The protective hard case helps ensure the longevity of each headphone.

## AVID Listening Center

Includes a storage case and 6 or 8 headphones and a jack box. This is a great option for working in small groups with one computer or monitor. Look for the Listening Center icon next to your favorite headphone.

# Speaker & Player

## SP-815

This is great for use with MP3 players, computers, and other audio devices. Charges easily through a computer using the provided USB cable.

## BB-992

The BB-992 has the ability to play CD and MP3 discs, cassettes as well as external devices through its USB, SD, or AUX in jacks. It also has an AM/FM radio, remote control, single headpone jack and built in microphone. It can operate with eight D batteries (not included) or with an AC/DC wall plug.

# Jack Box

Create several small learning groups within one classroom with AVID's Jack Boxes. Simply pair a Jack Box with a Boom Box, MP3 player, or other audio device and have 6 or 8 students listen while using headphones. Each Jack Box has both 6.3mm and 3.5mm plugs to be compatible with most devices.

## 8KP63M

This is a mono jack box with eight 6.3mm sockets and volume control.

## 8KP35S

This is a stereo jack box with eight 3.5mm sockets and volume control.

## 6KP35S

This is a stereo jack box with six 3.5mm sockets and volume control.

As classroom sizes grow the need to be heard grows as well. AVID's PA systems are available in three different sizes to guarantee that all students will hear the lesson without forcing the teacher to strain. The PA-133 and PA-216 units are rechargeable and include an AC/DC wall charger and microphone.

## PA Systems

### PA-122

With 6 watts of output power, the PA-122 is perfect for projecting your voice in a classroom setting thereby ensuring that even students at the back of the room can hear clearly. Its simple design couldn't be easier to operate – just plug in the included headset and go! The volume control dial is conveniently located on the top of the unit for easy adjusting. It can be worn around the waist or hung from the neck. Operates on AA batteries (included).

Perfect for a class of 20-30 students.

### PA-133

There is no need to repeat yourself when using this model. Not only does it offer 20 watts of output power to keep you from raising your voice but it can also record the lesson onto a flash drive or SD card to be given to students who are absent. It can be clipped onto a belt or waistband or be worn on the provided neck lanyard. It comes with a comfortable headset microphone that is plugged into the unit. It also has the ability to play back audio from a flash drive, SD card, or an external device through the line-in port and transmit FM radio.

Perfect for a class of 30-40 students.

### PA-216

The PA-216 is a lightweight portable PA system which is great for times when movement is necessary, such as field trips or recess duty. It can be carried by the handle or over the shoulder with the provided strap. It comes with a wireless microphone and has 35 watts of output power. It can also be set on a podium or stage for lectures, speeches and meetings. It also has a USB port for playing back audio from a flash drive and an external device through the line-in port.

Perfect for small gymnasiums, cafeterias, or auditoriums.

## Volume Control Adapter

This can be added to any model with a 3.5mm plug to add personal volume control.

## Splitter

This turns one headphone jack into two. Simply plug two headphones with a 3.5mm stereo plug into the female sockets and plug into your audio source.

## 6.3 mm Adapter

This makes a 3.5mm stereo plug into a 6.3mm stereo plug.

## Storage Case

This is for any products that you wish to store and keep clean. Our cases are made from durable, lightweight ABS plastic. Dimensions: 23" x 19.5" x 5.5"

## Vinyl Earpads

These are soft, padded earpads that are easy to clean. Contact AVID for sizes available.

## Foam Earpads

This helps keep environments hygienic. Great for multiple people reusing the same headphone.

## Storage Bag

This bag will keep your headphones and earbuds clean and ready for use. Contact AVID for types and sizes of bags available. Dimensions: 10" x 12"

## Extension Cord

This makes your cord 10" longer. It works with any headphone with a 3.5 mm stereo plug.

## Fishbone

To help prevent 3.5mm pin breakage, the inline Fishbone adapter flexes when the attached audio cable is suddenly pulled from the jack at an angle. This allows the 3.5mm pin to disengage smoothly.

# Inspire - Design - Execute

AVID is always working on a new headphone to accommodate your classrooms' needs. Our easy-to-execute three-step development process provides the opportunity to develop a optimized classroom component and assortment that enhances the classroom experience. **The AVID team is with you every step of the way to ensure success.**

## INSPIRE

Together with your team we will engage the creative process that promotes ideas and results in an actionable product plan.

## DESIGN

AVID always delivers classroom solutions that benefit the students and the teachers in terms of work productivity, while remaining a personally pleasing device that students will enjoy using.

## EXECUTE

Our Quality Assurance team, in collaboration with our customer service and logistics team will ensure that you receive a high quality product anytime you need it!

# BUILT FOR THE CLASSROOM

AVID's headphones answer the demanding needs of the learning environment. AVID creates secure, durable, and modern headphones with excellent audio properties.

## New Material

New plastics are extra durable and retain shape better over time.

## Headband Pad

Provides a comfortable fit even after long periods of use.

## Secure Vinyl Earpads

Ear pads are not easy to remove.

## Braided Nylon Cord

Chew-resistant

## Strain Relief

Built into stress points along the cord, strain relief helps ensure durability.

# AVID Warranty Information

## LIMITED WARRANTY

### Coverage

AVID products purchased by consumers directly from AVID or an authorized AVID distributor, reseller, carry our limited warranty. This warranty is extended only to the original end-use purchaser or the person receiving the product as a gift, and shall not be extended to any other person or transferee.

AVID warrants that this product, when delivered to you in new condition, in original packaging, from AVID and used in normal conditions, is free from any defects in manufacturing, materials and workmanship for the following periods from the date of retail purchase by the original end-use purchaser:

Multimedia players including CD, MP3, Cassette, Radio, etc. – 1 year after date of purchase

Jack Boxes – 1 year after date of purchase

Headphones and headsets (exclusions below) – 1 year after date of purchase

USB headphones and headsets – 6 months after date of purchase

Personal headphones and headsets (i.e. AE-711 line, AE-812) – 3 months after date of purchase

Disposable headphones and earbuds – only the return policy applies

\* Products may be discontinued at any time.

### Exceptions

This warranty does not cover defects resulting from improper or unreasonable use or maintenance; failure to follow operating instructions; accident; excess moisture; insects; lightning; power surges; connections to improper voltage supply; unauthorized alteration or modification of original condition; damages caused by inadequate packing or shipping procedures; loss of, damage to or corruption of stored data; damages caused by use with other products; product that requires modification or adaptation to enable it to operate in any country other than the country for which it was designed, manufactured, approved and/or authorized, or repair of products damaged by these modifications; and products purchased from unauthorized dealers.

### Our Commitment

During the warranty period, we will, at our sole option, repair or replace (using new or refurbished replacement parts) any defective parts within a reasonable period of time and free of charge.

## RETURN POLICY

### What you must do to obtain Limited Warranty Service:

#### Return product, with proof of purchase, using the following procedures:

1. No returns will be accepted without prior authorization;
2. Contact AVID for specific return and shipping instructions;
3. You will receive a Return Merchandise Authorization (RMA) number;
4. Label and ship the product, freight prepaid, to the address provided by AVID;
5. The customer will pay shipping, insurance or transportation charges from their site to AVID, or any import fees, duties and taxes.
6. Place any necessary RMA number prominently on the outside of the carton.
7. All returned merchandise is subject to a 15% restocking fee.

### Requirements

All product must be unused in original packaging, in resalable condition and include all components including manuals, cables, ear pads, etc. within 30 days of purchase. Cartons not bearing a return authorization number, where required, will be refused. All returns must be prepaid.

### Other Conditions

THE PROVISIONS OF THIS LIMITED WARRANTY ARE IN LIEU OF ANY OTHER WARRANTY, WHETHER EXPRESSED OR IMPLIED, WRITTEN OR ORAL, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. AVID'S MAXIMUM LIABILITY SHALL NOT EXCEED THE ACTUAL PURCHASE PRICE PAID BY YOU FOR THE PRODUCT. IN NO EVENT SHALL AVID BE LIABLE FOR LOSS OF, DAMAGE TO OR CORRUPTION OF STORED DATA, OR FOR SPECIAL, INCIDENTAL, CONSEQUENTIAL, OR INDIRECT DAMAGES HOWSOEVER CAUSED INCLUDING WITHOUT LIMITATION THE REPLACEMENT OF EQUIPMENT AND PROPERTY, AND ANY COSTS OF RECOVERING, PROGRAMMING OR REPRODUCING ANY PROGRAM OR DATA STORED IN OR USED WITH YOUR AVID PRODUCT.

### Other Legal Rights

This limited warranty gives you specific legal rights, and you also may have other rights that vary from state to state or country to country. Some places do not allow limitations on implied warranties or the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you.
