

Twisted Steel Security Cable Lock with KA Key

Twisted Steel Security Cable

Protect your laptop from theft with CTA Digital's Twisted Steel Security Cable Lock (KA Key). This heavy-duty, PVC-coated security cable attaches to the industry standard Kensington slot found on most laptops, unlocking with a set of included keys, while the other end loops around any permanent fixture. This minimal yet highly secure anti-theft solution allows you to safely use your laptop in public places, like coffee shops, retail counters, libraries, classrooms, and more. Also included is a Velcro strap for tidy slack management.

Features:

- 59-inch cable lock attaches to standard Kensington slots
- Keyed alike (KA) locking system perfect for businesses
- Scratch-resistant PVC coating
- Zinc alloyed lock body with tubular key mechanism
- Velcro strap for slack management

Package includes:

- (1) Security cable
- (2) Keys
- (1) Velcro strap
