Features

USB 3.1 Type-C Hub Connects to Your Device's USB-C or Thunderbolt 3 Port
This USB-C hub with PD Charging expands the potential of your tablet, laptop, Chromebook, MacBook, smartphone or PC's USB-C or Thunderbolt 3 port. It's ideal for adding a thumb drive and other USB peripherals or powering and charging a PD Charging-compliant mobile device—all at the same time.

Connects Up to 4 USB-A Peripherals
Four USB-A ports accept USB peripherals, such as a flash drive, mouse, keyboard or printer, and one provides up to 1.5A for charging smartphones and other mobile devices. All ports support fast USB 3.1 Gen 1 data transfer rates up to 5 Gbps and are backward compatible with previous USB generations, so you can continue using older peripherals while getting high-speed performance from new devices.

Charges a Connected Device
The USB-C Power Delivery (PD) port provides power and charging to the PD Charging-compliant device (such as a MacBook, Chromebook or Android smartphone) the USB-C hub is connected to. Connect the device's AC wall charger to the USB-C PD port, which supports power input up to 60W.

Built-In USB-C Cable Connects in Either Direction
Connect the reversible USB-C plug to your source device's Thunderbolt 3 or USB Type-C connector. The fumble-free USB-C plug connects in either direction to ensure fast, easy connection every time.

Ready to Use Right Out of the Package
The plug-and-play USB 3.1 Type-C hub requires no software, drivers or external power. The compact unit fits easily into a pocket, briefcase or laptop bag for connecting on the go.
